Malaysia can become a top-30 economy, says Abdul Wahid

Malaysia can become one of the world's 30 largest economies if its annual nominal gross domestic product (GDP) growth outpaces that of other countries by at least two percentage points, according to Tan Sri Abdul Wahid Omar.

He is currently chairman of Cypark Resources Bhd, IOI Corporation Bhd, WWF-Malaysia and the MySDG Foundation, co-chairman of Sunway Bhd, and pro-chancellor of Universiti Sains Islam Malaysia.

Abdul Wahid said Malaysia is currently ranked 35th, while the United Arab Emirates (UAE), which ranks 30th, has an economy about 20 per cent larger than Malaysia's.

"The countries occupying positions ahead of us will continue to grow," he said during the second Wisdom Malaysia Conference 2026 here today. He said this meant Malaysia would have to expand at a faster pace to narrow the gap and move into the ranks of the world's 30 largest economies.

Abdul Wahid said countries ranked above Malaysia would continue to expand, while emerging economies ranked below Malaysia, including the Philippines and Bangladesh, also aspired to achieve faster growth. – The Star

Govt to review import needs, formulate policies to strengthen domestic industries — Johari Ghani

The government will assess the country's import needs, including capital goods, and formulate policies to reduce dependence on external ecosystems as Malaysia seeks to strengthen domestic industries and create greater value from trade and investment.

Minister of Investment, Trade and Industry Datuk Seri Johari Abdul Ghani said it is important to create genuine value in Malaysia, develop home-grown technologies, and ensure that rising trade and investment translate into better outcomes for Malaysians.

"Last year also marked an important national milestone. For the first time in Malaysia's history, total trade surpassed RM3 trillion. Exports increased by 6.5% to RM1.61 trillion, while imports rose by 6.2% to RM1.45 trillion.

Malaysia consequently recorded a trade surplus of RM151.8 billion," he told reporters in conjunction with RHB Bank Bhd's RHB Progress Series 2026 conference here on Wednesday. – The Edge Malaysia

Treasury yields are steady as Kashkari says time to raise rates, ADP jobs data is weak

U.S. Treasury yields held steady on Wednesday as traders mulled over the outlook for interest rates and weighed a weaker-than-expected jobs reading from payrolls processing firm ADP.

The 10-year U.S. Treasury note yield — the main benchmark for mortgages, auto loans and credit card debt — was more than 1 basis point lower at 4.613%.

The longer-dated 30-year Treasury bond yield, which is more sensitive to geopolitical risks, fell 2 basis points to 5.169%. The 2-year Treasury note yield, which tends to react in line with short-term Federal Reserve interest rate decisions, was down more than 1 basis point at 4.179%.

On Wednesday, Minneapolis Federal Reserve President Neel Kashkari told CNBC that policymakers should begin raising rates, a move that could start as early as September with the central bank’s next meeting. – CNBC
