NEWS UPDATE

Today's headlines of interest and summaries as extracted from the international and local media.

Foreign investors remain net buyers injecting RM300 million into bond market

Malaysian government bond yields experienced a modest uptick last week as global markets grappled with the fallout from the escalating US–Iran conflict. Despite the geopolitical jitters, domestic markets remained relatively orderly, supported by a return of foreign capital and robust industrial data.

According to the latest fixed-income report from Kenanga, the benchmark 10-year Malaysian Government Securities (MGS) yield rose by 1.3 basis points (bps) to end at 3.552%, while its Islamic counterpart, the 10-year Government Investment Issue (GII), climbed 2.1 bps to 3.555%.

The upward movement in yields—which move inversely to bond prices—was primarily driven by external shocks, though domestic policy provided a stabilizing counterweight.

The US–Israel strike on Iran has sent energy prices into an upward spiral. This has revived global inflation concerns, prompting investors to demand higher yields for long-term debt. – Business Today

RAM Ratings assigns preliminary enhanced AAA(s) rating to Kami Builders' proposed RM90 million Tranche 1 SRI Sukuk Murabahah

RAM Ratings has assigned a preliminary enhanced rating of AAA(s)/Stable to Kami Builders Sdn Bhd's (KBSB or the Company) proposed RM90 mil Tranche 1 SRI Sukuk Murabahah (Tranche 1) under its RM300 million ASEAN Sustainability SRI Sukuk Programme. Tranche 1 will be fully secured by a standby letter of credit (SBLC) to be issued by UBS Switzerland AG (UBS). Accordingly, the rating solely reflects UBS's credit strength, which RAM has assessed as AAA/Stable(pi).

Kami Builders is a wholly owned subsidiary of Wawasan QI Properties Sdn Bhd (WQIP) and serves as WQIP's property investment and development arm. Proceeds from Tranche 1 will be partly used to fund the construction of a new university campus, estimated at RM150 mil in Ipoh, Perak. The balance of construction cost will be funded through advances from WQIP.

Upon completion, the campus will be leased to Global Integrated Teaching Associates (GITA), the operator of Quest International University (QIU or the University), for a minimum tenure of 20 years. GITA is owned by WQIP (65%), Dato' Sri Vijay Eswaran (15%), Dato' Dr R. Subramaniam (10%) and the Perak state government (10%). – RAM Ratings

NEWS UPDATE

Today's headlines of interest and summaries as extracted from the international and local media.

10-year Treasury yield is little changed after fourth-quarter GDP is revised dramatically lower

The 10-year Treasury yield was little changed on Friday as investors weighed the release of dramatically slower, downwardly revised fourth-quarter gross domestic product growth numbers.

The benchmark 10-year Treasury yield rose more than 1 basis point to 4.285%. The 30-year Treasury bond yield was up more than 2 basis points at 4.91%, and the 2-year Treasury note yield — most sensitive to short-term expectations of Federal Reserve policy moves — slid more than 2 basis points to 3.734%. Investors reacted to much slower economic growth in the fourth quarter than was originally reported.

Gross domestic product, a measure of all the goods and services produced across the sprawling U.S. economy, rose at a seasonally and inflation-adjusted annual rate of just 0.7% in the fourth quarter, according to the Bureau of Economic Analysis.

The first revision of the GDP reading was a sharp step down from the previous estimate of 1.4% and well below the Dow Jones consensus forecast for 1.5%. It also marked a considerable slowdown from the 4.4% growth rate seen in the third quarter of 2025. — CNBC
