On 28 April 2016, the Shareholders approved the renewal of authority for Directors of the Company to allot and issue new ordinary shares of RM0.70 each in the Company (TM Shares) in accordance to the Dividend Reinvestment Scheme (DRS) (as disclosed in the note 13(c) to the financial statements) at the Thirty-first Annual General Meeting (AGM) until the conclusion of the next AGM.

The DRS was not made applicable to the abovesaid 2nd and 1st Interim Dividends.

On 22 February 2017, the Board of Directors declared a second interim single-tier cash dividend of 12.2 sen per share for the financial year ended 31 December 2016. The dividend will be paid on 24 March 2017 to shareholders whose names appear in the Register of Members and Record of Depositors on 9 March 2017. The Board of Directors is not recommending payment of any final dividend in respect of the financial year ended 31 December 2016.

SHARE CAPITAL

The Company will be seeking shareholders' approval at the forthcoming Thirty-second (32nd) AGM for the renewal of the authority for the Directors of the Company to allot and issue new TM Shares and the approval of Bursa Malaysia Securities Berhad for the listing and quotation of the new TM Shares.

DIRECTORS' REPORT

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

SHARE CAPITAL (continued)**Shares issued pursuant to DRS**

No new shares were issued pursuant to the DRS during the financial year as the DRS was not made applicable to any dividends appropriated during the financial year.

LONG TERM INCENTIVE PLAN (LTIP)

On 29 September 2016, the Company implemented a LTIP for a period of 10 years, having obtained shareholders' approval at an Extraordinary General Meeting (EGM) on 28 April 2016 and all other subsequent required approvals. The EGM also approved the By-Laws governing the LTIP.

The main features of the LTIP and details of granting during the financial year are set out in note 14 of the notes to the financial statements.

MULTI-CURRENCY EURO MEDIUM TERM NOTES (EMTN) SUKUK PROGRAMME

During the financial year, the Company through its wholly-owned subsidiary, Tulip Maple Berhad issued EMTN under the sukuk programme approved by the Securities Commission Malaysia on 3 March 2015, with details as follows.

| Date of Issue | Nominal Value | Maturity Date |
|------------------|-----------------|------------------|
| 25 February 2016 | USD50.0 million | 25 February 2026 |
| 19 August 2016 | USD50.0 million | 21 August 2023 |
| 15 November 2016 | USD75.0 million | 15 November 2026 |

Details of the EMTN programme are as disclosed in note 17(g) of the financial statements.

The proceeds from the issuance of the EMTN are used by the Company to meet its capital expenditure and business operating requirements.

MOVEMENTS ON RESERVES AND PROVISIONS

All material transfers to or from reserves or provisions during the financial year have been disclosed in the financial statements.

STATUTORY INFORMATION ON THE FINANCIAL STATEMENTS

Before the financial statements of the Group and the Company were prepared, the Directors took reasonable steps to:

- ascertain that actions had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- ensure that any current assets which were unlikely to be realised at their book value in the ordinary course of business had been written down to their expected realisable values.

At the date of this report, the Directors are not aware of any circumstances which:

- would render the amounts written off for bad debts or the amount of allowance for doubtful debts in the financial statements of the Group and the Company inadequate to any substantial extent or the values attributed to current assets in the financial statements of the Group and the Company misleading; and
- have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and the Company misleading or inappropriate.

DIRECTORS' REPORT

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

STATUTORY INFORMATION ON THE FINANCIAL STATEMENTS (continued)

In the interval between the end of the financial year and the date of this report:

- (a) no items, transactions or other events of material and unusual nature has arisen which, in the opinion of the Directors, would substantially affect the results of the operations of the Group and the Company for the financial year in which this report is made; and
- (b) no charge has arisen on the assets of any Company in the Group which secures the liability of any other person nor has any contingent liability arisen in any Company in the Group.

No contingent or other liability of any Company in the Group has become enforceable or is likely to become enforceable within the period of 12 months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Group or the Company to meet their obligations when they fall due.

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and the Company, which would render any amount stated in the financial statements misleading.

The registered office of the Company is Level 51, North Wing, Menara TM, Jalan Pantai Baharu, 50672 Kuala Lumpur. The principal office and place of business of the Company is Menara TM, Jalan Pantai Baharu, 50672 Kuala Lumpur.

2. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items that are considered material in relation to the financial statements, and have been consistently applied to all the financial years presented, unless otherwise stated.

(a) Basis of Preparation of the Financial Statements

The financial statements of the Group and the Company have been prepared in accordance with the Malaysian Financial Reporting Standards (MFRS), International Financial Reporting Standards and the requirements of the Companies Act, 1965, in Malaysia.

The financial statements have been prepared under the historical cost convention except as disclosed in the Significant Accounting Policies below.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenue and expenses during the reported period. It also requires Directors to exercise their judgment in the process of applying the Group's and the Company's accounting policies. Although these estimates and judgment are based on the Directors' best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3 to the financial statements.

(i) Amendments to published standards that are effective and applicable for the Group's and the Company's financial year beginning on 1 January 2016

The amendments to published standards issued by Malaysian Accounting Standards Board (MASB) that are effective and applicable for the Group's and the Company's financial year beginning on 1 January 2016, are as follows:

| | |
|--------------------------------------|---|
| Amendments to MFRS 5, 7, 119 and 134 | Amendments to MFRSs contained in the document entitled "Annual Improvements to MFRSs 2012 – 2014 Cycle" |
| Amendments to MFRS 10, 12 and 128 | Investment Entities: Applying the Consolidation Exception |
| Amendments to MFRS 11 | Accounting for Acquisitions of Interests in Joint Operations |
| Amendments to MFRS 101 | Disclosure Initiative |
| Amendments to MFRS 116 and 138 | Clarification of Acceptable Methods of Depreciation and Amortisation |
| Amendments to MFRS 127 | Equity Method in Separate Financial Statements |

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Basis of Preparation of the Financial Statements (continued)

(i) Amendments to published standards that are effective and applicable for the Group's and the Company's financial year beginning on 1 January 2016 (continued)

The amendments to published standards issued by Malaysian Accounting Standards Board (MASB) that are effective and applicable for the Group's and the Company's financial year beginning on 1 January 2016, are as follows: (continued)

- Amendments to MFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" introduce specific guidance in MFRS 5 for when an entity reclassifies an asset (or disposal group) from held-for-sale to held-for-distribution to owners (or vice versa), or when held-for-distribution is discontinued.
- Amendments to MFRS 7 "Financial Instruments: Disclosures" provide additional guidance to clarify whether servicing contracts constitute continuing involvement for the purposes of applying the disclosure requirements of MFRS 7 and clarify the applicability of Disclosure—Offsetting Financial Assets and Financial Liabilities (Amendments to MFRS 7) to condensed interim financial statements.
- Amendments to MFRS 10, MFRS 12 and MFRS 128 on Investment Entities: Applying the Consolidation Exception addresses issues that have arisen in the context of applying the consolidation exception for investment entities. The amendments also provide relief in particular circumstances, which will reduce the costs of applying the Standards, clarifying the exemption from preparing consolidated financial statements for an intermediate parent entity, a subsidiary providing services that relate to the parent's investment activities, application of the equity method by a non-investment entity investor to an investment entity investee and the disclosures required.
- Amendments to MFRS 11 "Joint Arrangements" on Accounting for Acquisitions of Interests in Joint Operations clarify that when an entity acquires an interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in MFRS 3 Business Combinations, it shall apply the relevant principles on business combinations accounting in MFRS 3, and other MFRSs, that do not conflict with MFRS 11. Some of the impact arising may be the recognition of goodwill, recognition of deferred tax assets/liabilities and recognition of acquisition-related costs as expenses. The amendments do not apply to joint operations under common control and also clarify that previously held interests in a joint operation are not remeasured if the joint operator retains joint control.
- Amendments to MFRS 101 "Presentation of Financial Statements" on Disclosure Initiative aim to improve the effectiveness of disclosures and are designed to encourage companies to apply professional judgment in determining the information to be disclosed in the financial statements.
- Amendments to MFRS 116 and MFRS 138 on Clarification of Acceptable Methods of Depreciation and Amortisation provide additional guidance on how the depreciation or amortisation of property, plant and equipment and intangible assets should be calculated. MFRS 116 prohibits revenue-based depreciation because revenue does not, as a matter of principle, reflect the way in which an item of property, plant and equipment is used or consumed. The amendments to MFRS 138 introduce a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate except in limited circumstances.
- Amendments to MFRS 119 clarifies that the high quality corporate bonds used to estimate the discount rate for post-employment benefit obligations should be denominated in the same currency as the liability. The amendment also clarifies that the depth of the market for high quality corporate bonds should be assessed at a currency level.
- Amendments to MFRS 127 "Separate Financial Statements" on Equity Method in Separate Financial Statements allow a parent and investors to use the equity method in its separate financial statement to account for investments in subsidiaries, joint ventures and associates, in addition to the existing options.
- Amendments to MFRS 134 "Interim Financial Reporting" clarifies the meaning of disclosure of information 'elsewhere in the interim financial report' as used in MFRS 134. The amendment requires such disclosures to be given either in the interim financial statements or incorporated by cross-reference from the interim financial statements to some other statement that is available to users of the financial statements on the same terms as the interim financial statements and at the same time.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Basis of Preparation of the Financial Statements (continued)

(ii) New Standards, Interpretation Committee (IC) Interpretation and amendments to published standards that are not yet effective and have not been early adopted by the Group and the Company (continued)

The new standards, IC Interpretation and amendments to published standards that are applicable to the Group and the Company, which the Group and the Company have not early adopted, are as follows: (continued)

- Amendments to MFRS 2 "Share-based Payment" provides specific guidance on how to account for the effects of vesting and non-vesting conditions on the measurement of cash-settled share based payments, share-based payment transactions with net settlement feature for withholding tax obligations and a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.
- MFRS 9 "Financial Instruments (as issued by International Accounting Standard Board (IASB) in July 2014)" replaces the guidance in MFRS 139 that relates to the classification and measurement of financial instruments. MFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income (OCI) and fair value through profit or loss (FVTPL). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at FVTPL with the irrevocable option at inception to present changes in fair value in OCI, with only dividend income from the investment to be recognised in profit or loss. MFRS 9 introduces a new expected credit loss model that replaces the incurred loss impairment model used in MFRS 139.

For financial liabilities, there were no changes to classification and measurement except for liabilities designated at inception to be measured at FVTPL. For these, the portion of fair value changes caused by changes in an entity's own credit risk shall be recognised in OCI rather than in profit or loss. MFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under MFRS 139.

MFRS 7 requires disclosures on transition from MFRS 139 to MFRS 9.

- Amendments to MFRS 10 and MFRS 128 on Sale or Contribution of Assets between an Investor and its Associate or Joint Venture address an acknowledged inconsistency between the requirements in MFRS 10 "Consolidated Financial Statements" and MFRS 128 "Investment in Associates and Joint Ventures". Full gain or loss should be recognised on the loss of control of a business, whether the business is housed in a subsidiary or not. At the same time, the gain or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 "Business Combinations" to an associate or joint venture should only be recognised to the extent of unrelated investors' interests in the associate or joint venture.
- The amendments on MFRS 12 on Disclosure of Interests in Other Entities clarifies the applicability of this Standard to an entity's interest in other entities which are classified as held for sale or discontinued operations.
- MFRS 15 "Revenue from Contracts with Customers" is a new Standard aimed to improve financial reporting of revenue and comparability whilst providing better clarity on revenue recognition on areas where existing requirements unintentionally created diversity in practice. MFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. It also includes clarification on how certain principles should be applied in identifying whether performance obligations are distinct, determining whether an entity is principal or an agent and assessing whether revenue from a license of intellectual property is recognised over time or at a point in time. MFRS 15 replaces MFRS 118 "Revenue" and MFRS 111 "Construction Contracts" and related interpretations.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(a) Basis of Preparation of the Financial Statements (continued)****(ii) New Standards, Interpretation Committee (IC) Interpretation and amendments to published standards that are not yet effective and have not been early adopted by the Group and the Company (continued)**

The new standards, IC Interpretation and amendments to published standards that are applicable to the Group and the Company, which the Group and the Company have not early adopted, are as follows: (continued)

- MFRS 16 "Leases" is a new Standard that will supersede MFRS 117 "Leases" and related IC interpretations effective for financial period beginning 1 January 2019. MFRS 16 eliminates the distinction between finance and operating leases for lessees. It requires a lessee to recognise a "right-to-use" of the underlying assets and a lease liability reflecting future lease payments for most leases. The "right-to-use" is depreciated in accordance with the principles in MFRS 116 "Property, Plant and Equipment" and the lease liability is accreted over time with interest expense to be recognised in income statement. This effectively means all leases are reflected on the balance sheet for lessees. For lessors, MFRS 16 retains most of the requirements in MFRS 117 and lessors continue to classify all leases as either operating or finance lease and account for them differently.
- The Disclosure Initiative amendments on MFRS 107 "Statement of Cash Flows" are intended to clarify MFRS 107 to improve information provided to users of financial statements about an entity's financing activities. Disclosures that enable users to evaluate changes in liabilities arising from financing activities shall be provided including changes from financing cash flows, arising from obtaining or losing control of subsidiaries or other businesses, the effect of changes in foreign exchange rates and changes in fair values.
- Amendments to MFRS 112 "Income Taxes - Recognition of Deferred Tax Assets for Unrealised Losses" clarify how to account for deferred tax assets related to debt instruments measured at fair value as well as requirements on recognition of deferred tax assets on unrealised losses to address diversity in practice prior to this.
- Amendments to MFRS 128 "Investment in Associates and Joint Ventures" clarifies that an entity, which is a venture capital organisation, or a mutual fund, unit trust or similar entities, has an investment-by-investment choice to measure its investments in associates and joint-ventures at fair value in accordance with the Standard.
- Amendments to MFRS 140 "Investment Property" provide guidance on transfers to or from investment properties, and that a property under construction or development that was previously classified as inventory could be transferred to investment property only when there is evidence of a change in use.
- IC Interpretation 22 "Foreign Currency Transactions and Advance Consideration" addresses which exchange rate to use in reporting foreign currency transaction that involve advance consideration paid or received.

The adoption of the above applicable new standards, IC Interpretation and amendments to published standards are not expected to have a material impact on the financial statements of the Group and the Company except for MFRS 9, MFRS 15 and MFRS 16. The Group has yet to assess the full impact of MFRS 9, MFRS 15 and MFRS 16. The Group has commenced the project to implement MFRS 15 group-wide including the assessment of the impact of adopting the new revenue standard. At the time of preparing this financial statements, the impact from the adoption of this standard has yet to be fully quantified.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Economic Entities in the Group

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the entity),
- Exposure, or rights, to variable returns from its involvement with the entity, and
- The ability to use its power over the entity to affect its returns.

When the Group has less than a majority of the voting or similar rights of an entity, the Group considers all relevant facts and circumstances in assessing whether it has power over that entity, including:

- The contractual arrangement with the other vote holders of the entity
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are consolidated using the acquisition method of accounting except for business combinations involving entities or businesses under common control with agreement dates on/after 1 January 2006, which were accounted for using the merger method.

The Group has taken advantage of the exemption provided by MFRS 1 to not restate business combinations that occurred before the date of transition to MFRS i.e. 1 January 2011. Accordingly, business combinations entered into prior to transition date have not been restated.

Under the acquisition method of accounting, subsidiaries are fully consolidated from the date on which control is transferred to the Group and are excluded from consolidation from the date that control ceases.

The consideration transferred for acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

In a business combination achieved in stages, the previously held equity interest in the acquiree is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in the Consolidated Income Statement.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised in the Consolidated Income Statement (refer to Significant Accounting Policies note 2(f)(i) on Goodwill).

Non-controlling interest is the equity in a subsidiary not attributable, directly or indirectly, to a parent. On an acquisition-by-acquisition basis, the Group measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. At the end of reporting period, non-controlling interest consists of amount calculated on the date of combinations and its share of changes in the subsidiary's equity since the date of combination.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Economic Entities in the Group (continued)****(i) Subsidiaries (continued)**

Intra-group transactions, balances and unrealised gains or losses on transactions between Group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

The gain or loss on disposal of a subsidiary is the difference between the net disposal proceeds and the Group's share of the subsidiary's net assets as of the date of disposal, including the cumulative amount of any exchange differences that relate to that subsidiary and is recognised in the Consolidated Income Statement.

(ii) Transactions with non-controlling interests

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions - that is, transactions with the owners in their capacity as owners. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share of the carrying value of net assets of the subsidiary acquired is recorded in equity. For disposals to non-controlling interests, differences between any proceeds received and the relevant share of non-controlling interests are also recognised in equity.

(iii) Associates

Associates are corporations, partnerships or other entities in which the Group exercises significant influence but which it does not control. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not control over those policies.

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting and are initially recognised at cost. Equity accounting is discontinued when the Group ceases to have significant influence over the associates. The Group's investments in associates include goodwill identified on acquisition, net of any accumulated impairment loss.

The Group's share of its associates' post-acquisition profits or losses is recognised in the Consolidated Income Statements, and its share of post-acquisition movements in reserves is recognised within other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investments. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group's interest is reduced to nil and recognition of further loss is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to 'share of profit/(loss) of an associate' in the income statement.

The results of associates are taken from the most recent unaudited financial statements of the associates concerned, made up to dates not more than 3 months prior to the end of the financial year of the Group.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Where necessary, in applying the equity method, appropriate adjustments are made to the financial statements of the associates to ensure consistency of accounting policies with those of the Group.

Dilution gains and losses are recognised in the Consolidated Income Statement.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Economic Entities in the Group (continued)****(iii) Associates (continued)**

When the Group increases its stake in an existing investment and the investment becomes an associate for the first time, goodwill is calculated at each stage of the acquisition. The Group does not revalue its previously owned share of net assets to fair value. Any existing available-for-sale reserve is reversed in other comprehensive income, restating the investment to cost. A share of profits (after dividends) together with a share of any equity movements relating to the previously held interest are accounted for in other comprehensive income.

The gain or loss on disposal of an associate is the difference between the net disposal proceeds and the Group's share of the associate's net assets as of the date of disposal, including the cumulative amount of any exchange differences that relate to that associate which were previously recognised in other comprehensive income, and is recognised in the Consolidated Income Statement.

(iv) Changes in Ownership Interests

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the Consolidated Income Statement. This fair value is its fair value on initial recognition as a financial asset in accordance with MFRS 139. Any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities.

(c) Investments in Subsidiaries and Associates

Investments in subsidiaries and associates are stated at cost less accumulated impairment losses in the separate financial statements of the Company. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount (refer to Significant Accounting Policies note 2(g) on Impairment of Non-Financial Assets). Impairment losses are charged to the Income Statement.

On disposal of investments in subsidiaries and associates, the difference between the net disposal proceeds and the carrying amounts of the investments are recognised in the Income Statement.

(d) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. Certain freehold land are carried at fair value, being their deemed cost in accordance with the exemption provided by MFRS 1 "First-time Adoption of Malaysian Financial Reporting Standards" as at 1 January 2011, the date of transition to MFRS.

(i) Cost

Cost of telecommunications network comprises expenditure up to and including the last distribution point before the customers' premises and includes contractors' charges, materials, direct labour and related overheads. The cost of other property, plant and equipment comprises their purchase cost and any incidental cost of acquisition. These costs include the costs of dismantling, removal and restoration, the obligation which was incurred as a consequence of installing the asset. Cost also includes borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (refer to Significant Accounting Policies note 2(q)(ii) on borrowing costs).

Subsequent cost is included in the carrying amount of the asset or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefit associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Income Statement during the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(d) Property, Plant and Equipment (continued)****(ii) Depreciation**

Freehold land is not depreciated as it has an infinite life. Leasehold land classified as finance lease is amortised in equal instalments over the period of the respective lease. Long term leasehold land has an unexpired lease period of 50 years and above. Other property, plant and equipment are depreciated on a straight line basis to write-off the cost of the assets to their residual values over their estimated useful lives in years as summarised below:

| | |
|-----------------------------|--------|
| Telecommunications network | 3 - 30 |
| Movable plant and equipment | 5 - 8 |
| Computer support systems | 3 - 8 |
| Buildings | 5 - 40 |

Capital work-in-progress are stated at cost and are not depreciated. Upon completion, capital work-in-progress are transferred to categories of property, plant and equipment depending on the nature of the assets. Capital work-in-progress includes servicing equipment, materials and spares. Depreciation on property, plant and equipment under construction commences when the property, plant and equipment are ready for their intended use. Depreciation on property, plant and equipment ceases at the earlier of derecognition and classification as held for sale.

The assets' residual values and useful lives are reviewed and adjusted as appropriate at each reporting date.

(iii) Impairment

At each reporting date, the Group assesses whether there is any indication of impairment. If such indication exists, an analysis is performed to assess whether the carrying value of the asset is fully recoverable. A write-down is made if the carrying value exceeds the recoverable amount (refer to Significant Accounting Policies note 2(g) on Impairment of Non-Financial Assets).

(iv) Gains or Losses on Disposal

Gains or losses on disposal are determined by comparing the proceeds with the carrying amount of the related asset and are included in other operating income in the Income Statement.

(v) Asset Exchange Transaction

Property, plant and equipment may be acquired in exchange for a non-monetary asset or for a combination of monetary and non-monetary assets and is measured at fair values unless

- the exchange transaction lacks commercial substance; or
- the fair value of neither the assets received nor the assets given up can be measured reliably.

The acquired item is measured in this way even if the Group cannot immediately derecognise the assets given up. If the acquired item is not reliably measured at fair value, its cost is measured at the carrying amount of the asset given up.

(vi) Repairs and Maintenance

Repairs and maintenance are charged to the Income Statement during the period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group. This cost is depreciated over the remaining useful life of the related asset.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Investment Properties

Investment properties, principally comprising land and office buildings, are held for long term rental yields or for capital appreciation or for both, and are not occupied by the Group or the Company.

Investment properties are carried at cost less accumulated depreciation and impairment losses. Investment properties are depreciated on a straight line basis to write-off the cost of the investment properties to their residual values over their estimated useful lives in years as summarised below:

| | |
|----------------|--|
| Leasehold land | over the period of the respective leases |
| Buildings | 5 - 40 |

Freehold land is not depreciated as it has an infinite life.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

On disposal of an investment property, or when it is permanently withdrawn from use and no future economic benefits are expected, then it shall be derecognised (eliminated from the Statement of Financial Position). Gain or loss on disposal is determined by comparing the net disposal proceeds with the carrying amount and are included in the Income Statement.

(f) Intangible Assets

(i) Goodwill

Goodwill represents the excess of the cost of acquisition of subsidiaries over the Group's share of the fair value of the identifiable net assets including contingent liabilities of subsidiaries at the date of acquisition. Goodwill on acquisition occurring on or after 1 January 2002 in respect of a subsidiary is included in the Consolidated Statement of Financial Position as an intangible asset. Goodwill on acquisitions that occurred prior to 1 January 2002 was written off against reserves in the year of acquisition.

As part of the transition to MFRS, the Group elected not to restate business combinations that occurred before the date of transition to MFRS i.e. 1 January 2011. Goodwill arising from acquisitions before 1 January 2011 has been carried forward from the previous Financial Reporting Standards framework as at the date of transition.

Goodwill is carried at cost less accumulated impairment losses. Goodwill is tested for impairment at least annually, or when events or circumstances occur indicating that an impairment may exist. Impairment of goodwill is charged to the Consolidated Income Statement as and when it arises. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity disposed.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each cash-generating unit or a group of cash-generating units represents the lowest level within the Group at which goodwill is monitored for internal management purposes and which are expected to benefit from the synergies of the combination.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(f) Intangible Assets (continued)****(ii) Software**

Costs that are directly associated with identifiable and unique software products controlled by the Group and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Amortisation is calculated using straight line method at 20% per annum subject to impairment.

(iii) Programme Rights

Programme rights comprise rights licensed from third parties with the primary intention to broadcast in the normal course of operating cycle. The rights are stated at cost less accumulated amortisation and accumulated impairment losses (refer to Significant Accounting Policies note 2(g) on Impairment of Non-Financial Assets).

The Group amortises programme rights on a straight line basis over the license period or estimated useful life if shorter, from the date of first transmission, to match the costs of consumption with the estimated benefits to be received. Amortisation is included in the Income Statement.

(iv) Telecommunication Spectrum

Telecommunication spectrum acquired in a business combination is recognised at fair value at the acquisition date, with an indefinite useful life as there is a presumption of renewal at negligible cost. It is subjected for impairment review on an annual basis or whenever adverse events or changes in circumstances indicate that impairment may have occurred.

(v) Customer Base

Customer base acquired in a business combination is recognised at fair value at the acquisition date. It is expected to have a finite useful life and carried at cost less accumulated amortisation calculated using the straight-line method over the estimated useful life of three years. The expected useful life principally reflects the Group's view of the average economic life of the customer base, assessed by reference to customer churn rates.

(g) Impairment of Non-Financial Assets

Assets that have an indefinite useful life are not subject to amortisation and are tested for impairment annually, or as and when events or circumstances occur indicating that an impairment may exist. Property, plant and equipment and other non-current assets, including intangible assets with definite useful life, are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest level for which there is separately identifiable cash flows (cash-generating units). Assets other than goodwill that suffered an impairment are reviewed for possible reversal at each reporting date.

The impairment loss is charged to the Income Statement. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in the Income Statement.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial Assets

Financial assets are classified in the following categories: at fair value through profit or loss, loans and receivables and available-for-sale. Management determines the classification of its financial assets at initial recognition based on the nature of the asset and the purpose for which the asset was acquired.

(i) Financial Assets at Fair Value through Profit or Loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

Quoted equity securities (within current assets), determined on an aggregate portfolio basis, are classified as financial assets at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed to the Income Statement.

Changes in the fair values of financial assets at fair value through profit or loss are recognised in the Income Statement in the period in which the changes arise.

(ii) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise non-current receivables, trade and other receivables and cash and bank balances in the Statement of Financial Position.

Loans and receivables are measured at fair value plus transaction costs initially and subsequently, at amortised cost using the effective interest method.

When loans and receivables are impaired, the carrying amount of the asset is reduced and the amount of the loss is recognised in the Income Statement. Impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the asset's original effective interest rate.

(iii) Available-for-sale Financial Assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months from the end of the reporting period.

Fixed income securities (within current assets) and certain non-current equity investments are classified as available-for-sale investments, whilst convertible education loans (within non-current assets) are classified as available-for-sale receivables. These are initially measured at fair value plus transaction costs and subsequently, at fair value.

Changes in the fair values of available-for-sale investments are recognised in other comprehensive income. Whereas, changes in the fair value of available-for-sale receivables classified as non-current assets can be analysed by way of changes arising from conversion of the receivables to scholarship and other fair value changes. Changes arising from the conversion are recognised in the Income Statement, whereas, other fair value changes are recognised in other comprehensive income. Interests on available-for-sale receivables calculated using the effective interest method are recognised in the Income Statement.

When available-for-sale financial assets are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to the Income Statement.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(h) Financial Assets (continued)****(iv) Derecognition**

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Receivables that are factored out to banks and other financial institutions with recourse to the Group are not derecognised until the recourse period has expired and the risks and rewards of the receivables have been fully transferred. The corresponding cash received from the financial institutions is recorded as borrowings.

(v) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount presented on the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(i) Impairment of Financial Assets**(i) Assets Carried at Amortised Cost**

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- significant financial difficulty of the customer or obligor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becomes probable that the customers will enter bankruptcy or other financial reorganisation;
- observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - adverse changes in the payment status of customers in the portfolio; and
 - national or local economic conditions that correlate with defaults on the assets in the portfolio.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss is recognised in the Income Statement. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the Income Statement.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Impairment of Financial Assets (continued)

(ii) Assets Classified as Available-for-sale

In the case of equity and fixed income securities classified as available-for-sale, in addition to the criteria for 'assets carried at amortised cost' above, the following criteria are also considered as indicators of impairment:

- significant financial difficulty of the issuer or obligor;
- the disappearance of an active market for that financial asset because of financial difficulties; or
- a significant or prolonged decline in the fair value of the financial asset below its cost is considered as an indicator that the asset is impaired.

If any such evidence exists, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss previously recognised in the Income Statement, is reversed from equity and recognised in the Income Statement. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the Income Statement, the impairment loss is reversed through the Income Statement. Impairment losses recognised in the Income Statement on equity instruments classified as available-for-sale are reversed through other comprehensive income and not through the Income Statement.

(j) Derivative Financial Instruments and Hedging Activities

Derivative financial instruments are recognised and measured at fair value on the date a derivative contract is entered into and are subsequently remeasured at fair value with changes in fair value recognised in the Income Statement at each reporting date. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either hedges of the fair value of recognised assets or liabilities (fair value hedge) or hedges of a particular risk associated with a recognised asset or liability (cash flow hedge).

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months, and as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the Income Statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The Group applies fair value hedge accounting for hedging fixed interest risk on borrowings. The gain or loss relating to the effective portion of interest rate swaps hedging fixed rate borrowings is recognised in the Income Statement within 'finance cost'. The gain or loss relating to the ineffective portion is recognised in the Income Statement within 'other gains or losses – net'. Changes in the fair value of the hedged fixed rate borrowings attributable to interest rate risk are recognised in the Income Statement within 'finance cost'.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to the Income Statement over the period to maturity.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(j) Derivative Financial Instruments and Hedging Activities (continued)****Cash flow hedge**

The effective portion of changes in the fair value of derivatives that are designated and qualified as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in the Income Statement within 'other gains or losses – net'.

Amounts accumulated in equity are reclassified to the Income Statement in the periods when the hedged item affects the Income Statement. The gain or loss relating to the effective portion of cross currency interest rate swaps hedging fixed rate borrowings is recognised in the Income Statement within 'finance cost'.

When a hedging instrument matures, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the hedged item is ultimately recognised in the Income Statement.

(k) Embedded Derivatives

Derivatives embedded in other financial instruments or contracts are treated as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract and the host contract is not itself held-for-trading or designated as fair value to profit or loss. The embedded derivatives separated from the host are carried at fair value to profit or loss with changes in the fair value recognised in the Income Statement.

(l) Inventories

Inventories are stated at lower of cost and net realisable value.

Cost is determined on a weighted average basis and comprises all costs of purchase and other costs incurred in bringing the inventories to their present location. The cost of finished goods and work-in-progress comprises design costs, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs.

Net realisable value represents the estimated selling price in the ordinary course of business, less all estimated costs to completion and applicable variable selling expenses. In arriving at the net realisable value, due allowance is made for all obsolete and slow moving items.

(m) Non-current Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amounts are to be recovered principally through sale transaction and the sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell. Any subsequent write-down of the assets to fair value less cost to sell are recognised as impairment losses and are charged to the Income Statement.

(n) Customer Acquisition Costs

Customer acquisition costs are incurred in activating new customers pursuant to a contract. Customer acquisition costs are capitalised and amortised over the contract period. In the event that a customer terminates the service within the contract period, any unamortised customer acquisition costs are written off to the Income Statement immediately.

(o) Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short term, highly liquid investments with original maturities of 3 months or less. Deposits held as pledged securities for term loans granted are not included as cash and cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(p) Share Capital

(i) Classification

Ordinary shares and non-redeemable preference shares with discretionary dividends are classified as equity. Other shares are classified as equity and/or liability according to the economic substance of the particular instrument.

Distribution to holders of a financial instrument classified as an equity instrument is debited directly to equity.

(ii) Share Issue Costs

Incremental external costs directly attributable to the issuance of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

(iii) Dividend to Shareholders of the Company

Dividends on redeemable preference shares are recognised as a liability and expressed on an accrual basis. Other dividends are recognised as a liability in the period in which they are declared.

Dividend in specie of shares distributed to the Company's shareholders is recorded at the carrying value of net asset distributed. The distribution is recorded as a movement in equity.

(q) Financial Liabilities

Trade and other payables, customer deposits and borrowings are classified as other financial liabilities. These are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

(i) Trade Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). Otherwise, they are presented as non-current liabilities.

(ii) Bonds, Notes, Debentures and Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the initial recognised amount and the redemption value is recognised in the Income Statement over the period of the borrowings using the effective interest method, except for borrowing costs incurred for the construction of any qualifying asset.

Interests, dividends, gains and losses relating to a financial instrument, or a component part, classified as a liability are reported within finance cost in the Income Statement. Foreign exchange gains or losses arising from translation of foreign currency borrowings are reported within 'finance cost' in the Income Statement.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(q) Financial Liabilities (continued)****(ii) Bonds, Notes, Debentures and Borrowings (continued)**

Borrowing cost incurred in connection with financing the construction and installation of property, plant and equipment is capitalised until the property, plant and equipment are ready for their intended use. All other borrowing costs are charged to the Income Statement.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facilities will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

(iii) Put Option Liability Over Shares Held By Non-Controlling Interest

A contract that contains an obligation for the Group to deliver cash or other financial asset in exchange for its own (or its subsidiary's) equity shares is a financial liability. This liability is recorded irrespective of whether the contract meets the definition of an equity instrument. The financial liability is recognised at the present value of the redemption amount of the option, when it is exercised.

The initial redemption liability is recognised as Other Reserve in equity as a reduction of the Group's equity if the risk and rewards of ownership remain with the non-controlling interest or a reduction of non-controlling interest's equity if the risks and rewards of ownership transfer to the Group. Subsequently, the put option is remeasured at fair value as a result of changes in the expected liability with any resulting gain or loss recognised in the Income Statement. In the event that the option expires unexercised, the put option liability is de-recognised with a corresponding adjustment to equity.

(r) Leases**(i) Finance Leases**

Leases of assets where the Group assumes substantially all the risks and rewards of ownership are classified as finance leases.

Finance leases are capitalised at the inception of the leases at the lower of the present value of the minimum lease payments and the fair value of the leased assets. The corresponding rental obligations, net of finance charges, are included in borrowings.

Each lease payment is allocated between the reduction of the liability and finance charges so as to achieve a periodic constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the Income Statement.

Assets acquired under finance leases are depreciated over the shorter of their estimated useful lives or the lease terms.

(ii) Operating Leases

Leases of assets where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Income Statement on a straight line basis over the lease period.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the Income Statement over the financial period necessary to match them with the costs they are intended to compensate.

Government grants relating to the purchase of assets are included in non-current liabilities as deferred income and are credited to the Income Statement on a straight line basis over the estimated useful lives of the related assets.

(t) Income Taxes

Current tax expense is determined according to the tax laws of each jurisdiction in which the Group operates and include all taxes based upon the taxable profits, including withholding taxes payable by foreign subsidiaries or associates on distributions of retained profits to companies in the Group, and real property gains taxes payable on disposal of properties.

Deferred tax is recognised in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available in the future, against which the deductible temporary differences or unutilised tax losses and tax credits (including investment allowances) can be utilised.

Deferred tax is recognised on temporary differences arising from investments in subsidiaries and associates except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

The Group's share of income taxes of associates are included in the Group's share of results of associates.

(u) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed (for example, under an insurance contract), the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in a settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(v) Contingent Liabilities and Contingent Assets**

The Group does not recognise a contingent liability but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare circumstance where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise a contingent asset but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

In the acquisition of subsidiaries by the Group under a business combination, the contingent liabilities assumed are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest.

The Group recognises separately the contingent liabilities of the acquirees as part of allocating the cost of a business combination where their fair values can be measured reliably. Where the fair values cannot be measured reliably, the resulting effect will be reflected in the goodwill arising from the acquisitions.

Subsequent to the initial recognition, the Group measures the contingent liabilities that are recognised separately at the date of acquisition at the higher of the amount that would be recognised in accordance with the provisions of MFRS 137 and the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with MFRS 118.

(w) Revenue Recognition

Operating revenue comprises the fair value of the consideration received or receivables for the sale of products and rendering of services net of returns, duties, sales discounts and goods and services tax, after eliminating sales within the Group. Operating revenue is recognised or accrued at the time of the provision of products or services, when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Group.

Advance rental billing comprises mainly billing in advance for data services, which is amortised on a straight line basis according to contractual terms.

Dividend income from investment in subsidiaries, associates and equity investments is recognised within 'other operating income (net)' when a right to receive payment is established.

Finance income includes income from deposits with licensed banks, other financial institutions, other deposits, available-for-sale receivables and staff loans, and is recognised using the effective interest method.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(x) Employee Benefits

(i) Short Term Employee Benefits

Wages, salaries, paid annual leave and sick leave, bonuses and non-monetary benefits are accrued in the period in which the associated services are rendered by employees of the Group.

(ii) Defined Contribution Plans

The Group's contributions to defined contribution plans are charged to the Income Statement in the period to which they relate. Once the contributions have been paid, the Group has no further payment obligations. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iii) Termination Benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed formal plan without possibility of withdrawal or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after the reporting date are discounted to present value. These include limited medical benefits provided up to a certain age for eligible ex-employees under certain optional retirement scheme.

(iv) Share-based Compensation

• **Equity-settled Share-based Compensation**

The fair value of the employee services received in exchange for the grant of shares to employees of the Company are recognised as an expense in the Income Statements over the vesting period of the grant (or each respective grants in the event of multiple grants) with a corresponding increase in equity.

For shares granted to the employees of subsidiaries, the fair value of the grant is recognised as a cost to investment in the subsidiaries over the vesting period with a corresponding adjustment to equity.

• **Cash-settled Share-based Compensation**

The fair value of the employee services received in exchange for the cash payment by the Group or the Company to employees in lieu of shares of the Company are recognised at the fair value of the liability incurred, as expense in the Income Statements over the vesting period of the grant (or each respective grants in the event of multiple grants).

For both Share-based Compensations, the total amount to be expensed over the respective vesting periods is determined by reference to the fair value of the shares granted, excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in the assumptions about the number of shares that are expected to vest. At each reporting date, the Group revises its estimates of the number of shares that are expected to vest. It recognises the impact of the revision of original estimates of the grant liability, if any, in the Income Statement with a corresponding adjustment to share option reserve in equity.

The fair value of shares granted to employees of subsidiaries are allocated to the subsidiaries.

When the shares granted are vested and issued, the fair value is credited to share capital (nominal value) and share premium with corresponding debit to reserves and cash received (if any).

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**(y) Foreign Currencies****(i) Functional and Presentation Currency**

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

(ii) Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Income Statement, except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings are presented in the Income Statement within 'net finance cost'. All other foreign exchange gains and losses are presented in the Income Statement within 'operating costs'.

(iii) Group Companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each Statement of Financial Position presented are translated at the closing rate at the reporting date;
- income and expenses for each Income Statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the rates prevailing on the date of the transactions); and
- all resulting exchange differences are recognised as a separate component in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to other comprehensive income. When a foreign operation is disposed off or sold, such exchange differences that were recorded in equity are recognised in the Income Statement as part of the gain or loss on disposal.

(z) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-makers. The chief operating decision-makers are responsible for allocating resources and assessing performance of the operating segments and make overall strategic decisions.

Further disclosures on Segment Reporting are set out in note 45 to the financial statements.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

3. CRITICAL ACCOUNTING ESTIMATES

Estimates are continually evaluated by the Directors and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical Accounting Estimates and Assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Group's results and financial position are tested for sensitivity to changes in the underlying parameters. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next year are mentioned below.

(a) Estimated Useful Lives of Property, Plant and Equipment

The Group reviews annually the estimated useful lives of property, plant and equipment based on factors such as business plan and strategies, expected level of usage, changes in technology, latest findings in research and development, updated practices to enhance performance of certain network assets and future technological developments. Future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A change in the estimated useful lives of property, plant and equipment would change the recorded depreciation and the carrying amount of property, plant and equipment.

(b) Impairment of Property, Plant and Equipment, Intangible Assets (other than goodwill) and Investment in Subsidiaries

The Group assesses impairment of the assets mentioned above whenever the events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable i.e. the carrying amount of the asset is more than the recoverable amount. Recoverable amount is measured at the higher of the fair value less cost to sell for that asset and its value-in-use. The value-in-use is the net present value of the projected future cash flow derived from that asset discounted at an appropriate discount rate.

Projected future cash flows are based on the Group's estimates calculated based on historical, sector and industry trends, general market and economic conditions, changes in technology and other available information.

(c) Impairment of Goodwill

The Group tests goodwill for impairment annually in accordance with its accounting policy or whenever events or changes in circumstances indicate that this is necessary. The assumptions used, results and conclusion of the impairment assessment are stated in note 24 to the financial statements.

(d) Impairment of Trade Receivables

The Group assesses at each reporting date whether there is objective evidence that trade receivables have been impaired. Impairment loss is calculated periodically based on a review of the current status of existing receivables and historical collection trends to reflect the actual and anticipated experience.

(e) Useful Lives of Intangibles Assets Acquired through Business Combination

The useful life over which intangible assets are amortised depends on management's estimate of the period over which economic benefit will be derived from the asset. Useful lives are periodically reviewed to ensure that they remain appropriate. The basis for determining the useful lives for the intangible assets acquired through business combination are as follows:

- Telecommunication spectrum estimated useful life is estimated to have an indefinite useful life with the presumption that any renewal are at negligible cost and the Group is expected to continue utilising the spectrum in providing its telecommunication services indefinitely.
- The estimated useful life of the acquired customer base principally reflects the Group's view of the average economic life of the customer base and is assessed by reference to customer churn rates.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

3. CRITICAL ACCOUNTING ESTIMATES (continued)**Critical Accounting Estimates and Assumptions (continued)****(f) Taxation****(i) Income Taxes**

The Group is subject to income taxes in numerous jurisdictions. Judgment is involved in determining the group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for tax matters based on estimates of whether additional taxes will be due. If the final outcome of these tax matters result in a difference in the amounts initially recognised, such differences will impact the income tax and/or deferred tax provisions in the period in which such determination is made.

(ii) Deferred Tax Assets

Deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which temporary differences or unutilised tax losses and tax credits (including investment allowances) can be utilised. This involves judgment regarding future taxable profits of a particular entity in which the deferred tax asset has been recognised.

Estimating the future taxable profits involved significant assumptions, especially in respect of demand on existing and new services, competition and regulatory changes that may impact the pricing of services. These assumptions were derived based on past performance and adjusted for non-recurring circumstances.

(g) Contingent Liabilities

Determination of the treatment of contingent liabilities is based on Directors' view of the expected outcome of the contingencies after consulting legal counsel for litigation cases and experts internal and external to the Group for matters in the ordinary course of business. Details of the legal proceedings in which the Group is involved as at 31 December 2016 is disclosed in note 50 to the financial statements.

(h) Fair Value of Derivatives and Other Financial Instruments

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Group exercises its judgment in selecting a variety of valuation methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period.

The fair value of derivatives is the present value of their future cash flows. The Group estimated the fair values at the reporting date, of certain available-for-sale financial assets that are not traded in an active market by using the net tangible assets and the discounted cash flow methods. In estimating the fair value of put and call options on shares of a subsidiary, the Group has used valuation models in projecting expected share prices utilising comparable discount and growth rates reflective of market conditions specific to relevant industry existing at the end of the reporting period. Although the Group and the Company believe that estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value.

The summary of financial instruments by category is disclosed in note 46 to the financial statements. The valuation of such financial instruments is further discussed in note 47 to the financial statements.

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(a) Financial Risk Factor

The main risks arising from the Group's financial assets and liabilities are market risk (comprises foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management seeks to minimise potential adverse effects of these risks on the financial performance of the Group.

The Group has established risk management policies, guidelines and procedures in order to manage its exposure to these financial risks. Hedging strategies are determined in light of commercial commitments to mitigate the relevant risks exposures. Derivative financial instruments are used to hedge the underlying commercial exposures and are not held for speculative purposes.

(i) Market Risk

- Foreign Exchange Risk

The Group's foreign exchange risk refers to adverse exchange rate movements on foreign currency positions originating from trade receivables and payables, deposits and borrowings denominated in foreign currencies, and from retained profits in overseas subsidiaries, where the functional currencies are not in Ringgit Malaysia.

The Group's objective is to mitigate foreign exchange exposure to an acceptable level against pre-determined limits and impact to the Income Statement. The Group monitors its foreign currency denominated assets and liabilities and uses various hedging instruments such as forward contracts, Cross Currency Interest Rate Swaps (CCIRS) contracts and option structures as well as maintaining funds in foreign currencies at appropriate levels to support operating cash flows requirement. The Group's policy requires all transactions for hedging foreign currency exchange risk exposure be executed within the parameters approved by the Board of Directors.

The foreign exchange risk of the Group arises predominantly from borrowings denominated in foreign currencies, mainly the US Dollar and Japanese Yen. During the financial year, in addition to the existing US Dollar and Japanese Yen forward and CCIRS contracts, the Group entered into additional forward contracts to hedge US Dollar purchases in order to reduce foreign currency exposures. After hedging of the US Dollar and Japanese Yen borrowings, the foreign currency borrowings composition is reduced to 20.1% (2015: 13.1%) of the Group's total borrowings as at 31 December 2016.

Based on the borrowings position as at 31 December 2016, if the Ringgit Malaysia had weakened/strengthened by 5.0% against the US Dollar and Japanese Yen with all other variables held constant, the post-tax profit for the financial year for the Group would have been lower/higher by approximately RM129.0 million and RM15.0 million (before hedging) respectively and RM84.1 million and RM nil million (after hedging) respectively as a result of foreign exchange losses or gains on translation of US Dollar and Japanese Yen denominated borrowings.

- Price Risk

The Group is exposed to equity and fixed income securities price risk arising from investments as reflected on the Statement of Financial Position, classified either as available-for-sale or at fair value through profit or loss. The Group is not exposed to commodity price risk. The quoted equity securities portfolio has decreased to RM6.0 million as at 31 December 2016 from RM6.6 million at the end of 2015 due to decline in market value for the existing portfolio.

Based on the quoted equity securities portfolio as at 31 December 2016, if Bursa Malaysia equity index move by 5.0%, with all other variables remain constant, post-tax profit for the financial year would have been impacted by approximately RM0.3 million. Post-tax profit for the financial year would increase or decrease as a result of gains/losses on equity securities classified as fair value through profit or loss.

Other components of equity would increase/decrease as a result of gains/losses on equity and fixed income securities classified as available-for-sale.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**(a) Financial Risk Factor (continued)****(i) Market Risk (continued)**

- Interest Rate Risk

The Group has cash and short term deposits and fixed income securities that are exposed to interest rate movement. The Group manages its interest rate risk on cash and short term deposits through allocation in suitable tenure. While on fixed income securities, the Group applies suitable duration and basis point valuation analysis impact to manage its interest rate risk.

The Group's investments in money market and fixed income securities as at 31 December 2016 were RM1,647.3 million (2015: RM2,359.4 million) and RM518.0 million (2015: RM515.6 million) respectively. For an increase of 25 basis points in the Overnight Policy Rate (OPR) by Bank Negara Malaysia and assuming the overall yield curve also increases by the same percentage, the finance income from the money market portfolio would correspondingly move by approximately RM4.1 million while the net asset value of the fixed income portfolio would inversely move by approximately RM6.9 million.

The Group's debts include revolving credits, borrowings, bonds, notes and debentures. The Group's objective is to manage the interest rate risk to an acceptable level of exposure on the finance cost. The Group reviews its composition of fixed and floating rate debt based on assessment of its existing exposure and desirable interest rate profile acceptable to the Group. Hedging instruments such as interest rate swaps are used to manage these risks.

The Group's policy requires all transactions for hedging interest rate risk exposure be executed within the parameters approved by the Board of Directors.

The Group has entered into a few interest rate swap transactions with creditworthy financial institutions. Based on the hedging position as at 31 December 2016, if there were to be a hike in the OPR by 25 basis points, the finance cost would be higher by approximately RM0.6 million.

As at 31 December 2016, the Group's interest rate profile, after hedging, was at 100% fixed interest rate (2015: 93:7 fixed-to-floating).

The interest rate exposure is mitigated, to some extent, by the offsetting effect between assets and liabilities.

(ii) Credit Risk

Financial assets that are primarily exposed to credit risks are receivables, cash and bank balances, marketable securities and financial instruments used in hedging activities.

Due to the nature of the Group's business, customers are mainly segregated according to business segments. The Group has no significant concentration of credit risk due to its diverse customer base. Credit risk is managed through the application of stringent credit control assessment and approval, credit limit and monitoring procedures. Where appropriate, the Group obtains deposits or bank guarantees from customers to be held as collaterals.

The Group places its cash and cash equivalents with various creditworthy financial institutions. The Group's policy limits the concentration of credit exposure to any single financial institution based on its net tangible asset position and/or credit rating, which is subject to annual review.

The Group has appointed several fixed income and commercial papers fund managers to manage its investment portfolios. In managing the portfolios' credit risks, the investment parameter was established to restrict all fund managers to only invest in securities that carry at least A3/P1 credit ratings or equivalent. This is in accordance with the Group's Treasury Investment Policies and Guidelines. In the current financial year, the Group's investment portfolios were predominantly securities carrying AA/P1 credit ratings or above, as shown in note 28 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**(a) Financial Risk Factor (continued)****(ii) Credit Risk (continued)**

All hedging instruments are executed with creditworthy financial institutions with a view to limiting the credit risk exposure of the Group. The Group, however, is exposed to credit-related losses in the event of non-performance by counterparties to financial derivative instruments, but does not expect any counterparties to fail to meet their obligations.

In complying with the risk management policies, all counterparties are required to maintain certain credit rating as defined by the international and local rating agencies.

(iii) Liquidity Risk

Group Treasury maintains cash and cash equivalents at a level that is deemed appropriate by the management to finance the Group's operations. It also actively monitors and controls liquidity risk exposures and funding needs across legal entities within the Group, business lines and currencies, taking into account legal, regulatory and operational limitations via a centralised Treasury operation.

Due to the dynamic nature of the underlying business, the Group also aims at maintaining flexibility in funding by keeping both committed and uncommitted credit lines available.

Cash flow forecasts are performed in the operating entities of the Group on a rolling basis and are aggregated by Group Treasury to ensure sufficient cash is available to meet operational needs while maintaining adequate headroom on its undrawn committed credit facilities at all times. As at 31 December 2016, the Group held deposits with financial institutions of RM1,647.3 million (2015: RM2,359.4 million) and cash and bank balances of RM1,278.7 million (2015: RM1,152.2 million) that are expected to be readily available to meet any payment obligation when it falls due.

Refinancing risk is managed by limiting the amount of borrowings that mature within any specific period and by having appropriate strategies in place to manage refinancing needs as they arise. The Group has available funding with the establishment of the new Islamic Commercial Papers programme, Islamic Medium Term Notes and Multi-Currency Euro Medium Term Notes programmes with remaining combined limit of up to RM3.6 billion in nominal value to meet capital expenditure and business operating requirements. The analysis of the maturity profile of the Group's and the Company's financial liabilities are shown in note 48 to the financial statements.

There has been no significant change in the Group's financial risk management objectives and policies as well as its financial risk exposure in the current financial year as compared to the preceding financial year.

(b) Capital Risk Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide long term return to shareholders and benefits for other stakeholders. The Group's capital management framework comprises of a dividend policy and strives to maintain an optimal capital structure that will improve its capital efficiency.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends to be paid to the shareholders or may return capital to shareholders vis-à-vis its debt-to-equity ratio (gearing level). In 2014, the Group introduced a Dividend Reinvestment Scheme (DRS) whereby its shareholders have the option to either receive cash dividends or reinvest the dividends in new ordinary shares of the Company. Depending on the level of subscription of DRS, the Group would be able to enlarge its share capital base as well as strengthen its capital position through the DRS whenever applicable.

| Debt-to-equity Ratio | 1.1 | 1.0 |

The Group also monitors its gearing level in comparison to its peers within the industry while maintaining the desired level of credit rating. During 2016, the Group's credit rating remained unchanged at AAA by RAM, A- by S&P and A3 by Moody's.

Furthermore, the Group complies with Bursa Malaysia Securities Berhad Main Market Listing Requirement to maintain a consolidated shareholders' equity of more than 25 percent of the issued and paid up capital and maintain such shareholders' equity at not less than RM40.0 million.

(a) Special Rights Redeemable Preference Share (Special Share)

The Special Share of RM1.00 is held by the Special Shareholder, Minister of Finance, a body corporate established under the Minister of Finance (Incorporation) Act 1957 (MOF). MOF's holding would enable the Government through the Minister of Finance to ensure that certain major decisions affecting the operations of the Company are consistent with the Government's policy. The Special Shareholder, which may only be the Government or any representative or person acting on its behalf, is entitled to receive notice of meetings but does not carry any right to vote at such meetings of the Company. However, the Special Shareholder is entitled to attend and speak at such meetings.

Certain matters, in particular, the alteration of the Articles of Association of the Company relating to the rights of the Special Shareholder, the dissolution of the Company, any substantial acquisitions and disposal of assets, amalgamation, merger and takeover, require the prior consent of the Special Shareholder.

The Special Shareholder has the right to require the Company to redeem the Special Share at par at any time. In a distribution of capital in a winding up of the Company, the Special Shareholder is entitled to the repayment of the capital paid up on the Special Share in priority to any repayment of capital to any other members. The Special Share does not confer any right to participate in the capital or profits of the Company.

(b) Non-Convertible Redeemable Preference Shares (NCRPS)

These comprise 2,000 Class C NCRPS of RM1.00 each and 1,000 Class D NCRPS of RM1.00 each. On 20 July 2007, the Company issued 2,000 Class C NCRPS (TM NCRPS C) and 925 Class D NCRPS (TM NCRPS D) at a premium of RM999.00 each over the par value of RM1.00 each. TM NCRPS C and TM NCRPS D rank pari passu amongst themselves but below the Special Share and ahead of the ordinary shares of the Company in distribution of capital in the event of the winding up or liquidation of the Company. TM NCRPS C and TM NCRPS D have been classified as liabilities. On 30 December 2013, the Company had redeemed TM NCRPS C upon its maturity.

The details of TM NCRPS C and TM NCRPS D are set out in note 17(b)(i) to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

13. SHARE CAPITAL (continued)**(c) Dividend Reinvestment Scheme (DRS)**

On 27 March 2014, the Company announced a proposal to undertake a DRS that provides shareholders of the Company (Shareholders) the option to elect to reinvest, in whole or in part, their cash dividend which includes interim, final, special or any other cash dividend, in new ordinary share(s) of RM0.70 each in the Company (New TM Share).

The DRS received the approval from the Bursa Malaysia Securities Berhad via its letter dated 7 April 2014 and the Shareholders' approval at the Company's Extraordinary General Meeting on 8 May 2014.

Whenever the DRS is made applicable to any dividend distributed, shareholders have the following options to reinvest their cash dividend in New TM Shares (Option to Reinvest):

- to elect to participate by reinvesting in whole or in part the portion of such dividend to which the Option to Reinvest applies (Electable Portion), at the issue price for New TM Shares.

In the event that only part of the Electable Portion is reinvested, the Shareholders shall receive the remaining portion of the dividend in cash; or

- to elect not to participate in the Option to Reinvest and thereby receive the entire dividend in cash.

On 26 February 2015, the Company announced a final dividend in respect of financial year ended 31 December 2014 of 13.4 sen per share (Final Dividend) for approval in the 30th Annual General Meeting (AGM) of the Company. The Directors determined that the DRS (as approved in the Company's Extraordinary General Meeting on 8 May 2014) would be applicable to the entire Final Dividend for the financial year ended 31 December 2014. Pursuant to the approval, 38,565,824 New TM Shares were issued on 18 June 2015 at an issue price of RM6.98 per New TM Shares. This translates to 54.0% rate of acceptance of shareholders to reinvest in their cash dividend in New TM Shares.

The DRS was not made applicable to any of the dividends distributed subsequent to the above i.e. all dividends distributed for the financial year ended 31 December 2015 and 2016.

14. EMPLOYEE SHARE SCHEME - LONG TERM INCENTIVE PLAN (LTIP)

On 28 April 2016, shareholders of the Company approved the LTIP and the Grants of Shares of the Company to eligible employees of the Group and Company at an Extraordinary General Meeting. The LTIP is a scheme under which shares may be issued by the Company to employees for no cash consideration.

The LTIP comprises a Restricted Share (RS) Grant and Performance Share (PS) Grant where for clarification purposes, the main differences in the features of the RS Grant and the PS Grant are the eligibility of the Eligible Employees in terms of their job grades in the Group, the performance metrics to be met which will be determined prior to the grant being made in writing to the Eligible Employees and the vesting periods of the Grant to the Eligible Employees. The Company's Board of Directors have established a sub-committee comprising a certain members of the Board to administer the LTIP in accordance with the by-laws governing the LTIP (LTIP Committee).

Features of LTIP**(i) Eligibility**

All employees other than a non-executive or independent Directors of the Company, who has entered into a full-time or fixed-term employment with, and is on the payroll of the Group or Company are eligible to participate in the scheme (Eligible Employees) subject to fulfilling any other eligibility criteria which may be determined by the LTIP Committee at its sole discretion from time to time. Eligible Employees may elect not to participate in the scheme.

(ii) Maximum number of new ordinary shares of the Company under the LTIP

Under the LTIP, the total number of ordinary shares of the Company which may be made available under the LTIP shall not exceed in aggregate ten percent (10%) of the issued and paid-up ordinary share capital of the Company (excluding treasury shares) (Maximum Shares) at any point in time over the duration of the LTIP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

14. EMPLOYEE SHARE SCHEME - LONG TERM INCENTIVE PLAN (LTIP) (continued)**Features of LTIP (continued)****(iii) Basis of allocation and maximum allowable allotment**

The total number of new ordinary shares of the Company that can be offered and allotted to any Eligible Employees (as defined in the By-Laws in relation to the LTIP shall be at the absolute discretion of the LTIP Committee) after taking into consideration amongst other factors, the performance, his/her potential for future development and contribution to the success and development of the Group and such other criteria as the LTIP Committee may deem relevant.

Further, not more than 10% of the Company's new ordinary shares available under the LTIP will be allocated to any individual Eligible Employee who, either singly or collectively through persons connected with the Eligible Employees, holds 20% or more of the Company's issued and fully paid-up share capital.

The LTIP Committee shall have sole and absolute discretion in determining whether the shares of the Company available for vesting under the Proposed LTIP are to be granted to the Eligible Employees or any group or groups of Eligible Employees via:

- (a) one single Grant (as the case may be) at a time determined by the LTIP Committee; or
- (b) several Grants (as the case may be) where the vesting of the Company's Shares comprised in those Grants are staggered or made in several tranches at such times and on terms determined by the LTIP Committee.

In the event the LTIP Committee decides that the Grant or vesting of any number of shares of the Company under LTIP is to be staggered, the number of shares to be granted in each Grant and the timing for the vesting of the same shall be decided by the LTIP Committee at its sole and absolute discretion. Each Grant shall be separate and independent from the others.

(iv) Duration of the LTIP

The LTIP shall continue to be in force for a period of ten (10) years commencing from the effective date of implementation of the Proposed LTIP, being the date on which full compliance with the relevant requirements under the By-Laws and the Listing Requirements in relation to the Proposed LTIP, have been obtained and/or met.

On the expiry of the LTIP, any Grants which have yet to be vested (whether fully or partially) shall be deemed terminated and be null and void. Notwithstanding anything set out in the By-Laws and subject to compliance with the Bursa Malaysia Listing Requirements in relation to the LTIP, the Group and the Company may terminate the LTIP at any time during its term.

(v) Ranking of the shares issued under the LTIP

The new shares issued under the LTIP shall be subject to the provisions of the memorandum and articles of association of the Company. The new shares, shall, upon issuance and allotment, rank equally in all respects with the then existing shares of the Company, except that they shall not be entitled to any dividend, rights, allotment and/or other distribution, the entitlement date of which is prior to the date on which the new shares are allotted to the Grantees pursuant to the LTIP.

(vi) Restrictions on Transfer

The new shares issued under the LTIP will be subject to such restriction on transfer upon the terms and conditions in accordance with the By-Laws.

The Group and Company implemented the LTIP with effect from 29 September 2016, after having obtained all required approvals and complied with the requirements pertaining to the LTIP. As at the end of the financial year ended 31 December 2016, only the RS has been granted to the relevant Eligible Employees.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

17. BORROWINGS (continued)

- (a) Secured borrowings of subsidiaries are facilities relating to projects of the subsidiaries and are secured mainly by either assignment of proceeds receivable from projects as well as fixed and floating charge over assets.
- (b) On 20 July 2007, the Company had, through itself and its wholly-owned subsidiary, Hijrah Pertama Berhad (HPB), issued the TM Islamic Stapled Income Securities (TM ISIS) consisting of:
 - (i) (a) RM2.0 million Class C Non-Convertible Redeemable Preference Shares (NCRPS) (TM NCRPS C) consisting of 2,000 Class C NCRPS of RM1.00 each at a premium of RM999.00 issued by the Company at an issue price of RM1,000 each;
 - (b) Sukuk Ijarah Class A of nominal value RM1,998.0 million issued by HPB; and
 - (ii) (a) RM925,000 Class D NCRPS (TM NCRPS D) consisting of 925 Class D NCRPS of RM1.00 each at a premium of RM999.00 issued by the Company at an issue price of RM1,000 each;
 - (b) Sukuk Ijarah Class B of nominal value RM924,075,000 issued by HPB.

Sukuk Ijarah Class A and B are collectively referred to as 'Sukuk'.

The TM NCRPS (which comprises Class C and Class D NCRPS respectively) are effectively linked to the Sukuk in that the TM NCRPS and the Sukuk are issued simultaneously to the same parties and the periodic distribution obligations under the Sukuk are dependent on the payments made under the TM NCRPS. The outstanding amount of Sukuk are treated as borrowing by the Company as the Sukuk are effectively obligations of the Company.

The TM ISIS are classified as debt instruments and hence are reported as liabilities. Consequently, dividend payable under TM NCRPS and rental payable under Sukuk are reported as finance cost.

On 30 December 2013, the Company repaid the RM2.0 million Class C NCRPS and RM1,998.0 million Class A Sukuk at nominal value.

Salient terms of the above transactions are:

(I) TM NCRPS

The principle features of the TM NCRPS are summarised as follows:

- (i) The NCRPS will not be convertible to ordinary shares of the Company.
- (ii) The NCRPS are not transferable/tradable and will be held by Primary Subscribers. The NCRPS will be mandatorily redeemed by the Company upon maturity of the Sukuk.
- (iii) There will be no voting rights except with regards to the proposal to reduce the capital of the Company, sanctioning the disposal of the whole of the Company's property, business and undertaking or where the proposition to be submitted to the meeting directly affects the rights and privileges of the NCRPS holders or as provided for in the Companies Act, 1965.
- (iv) The NCRPS will not be listed on any of the boards of Bursa Malaysia Securities Berhad.
- (v) The NCRPS shall rank pari passu amongst themselves but below the Special Share and ahead of the Company's ordinary shares in a distribution of capital in the event of the winding up or liquidation of the Company.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

17. BORROWINGS (continued)

- (b) Salient terms of the above transactions are: (continued)

(II) Sukuk Ijarah

The Sukuk are issued in 4 classes and is for the purposes of financing the purchase by HPB of the beneficial ownership of certain assets. The Sukuk comprise the following classes:

- (i) Class A Sukuk comprising Class A1 Sukuk and Class A2 Sukuk (collectively referred to as 'Class A Sukuk')
- (ii) Class B Sukuk comprising Class B1 Sukuk and Class B2 Sukuk (collectively referred to as 'Class B Sukuk')

The Class A Sukuk and Class B Sukuk shall represent undivided beneficial ownership in the relevant assets and shall constitute direct, unconditional and unsecured trust obligations of HPB and shall at all times rank pari passu, without discrimination, preference or priority amongst themselves.

Features of the Sukuk are summarised as follows:

- (i) The Sukuk shall constitute trust obligations of HPB in relation to, and represent undivided beneficial ownership in the assets.
- (ii) Class A2 Sukuk and Class B2 Sukuk are not transferable/tradable and will be held by Primary Subscribers until maturity of the Sukuk.
- (iii) The Sukuk will constitute, inter alia, the obligations of the Company.
- (iv) The obligations of the Company in respect of the Sukuk will constitute direct, unconditional and unsecured obligations of the Company and shall at all times rank pari passu, without discrimination, preference or priority amongst themselves and at least pari passu with all other present and future unsecured and unsubordinated obligations of the Company, subject to those preferred by law or the transaction documents.
- (v) The Sukuk carry a rating of AAA by RAM Rating Services Berhad at the date of issue.

The respective tenure of the Sukuk are as follows:

| Class | Maturity Dates |
|-------|------------------|
| A1 | 30 December 2013 |
| A2 | 30 December 2013 |
| B1 | 28 December 2018 |
| B2 | 28 December 2018 |

During the tenure of the TM ISIS, the Company can elect to either:

- (i) Pay gross dividends, comprising net dividend with the respective tax credits to investors and Nominal Rental payable to HPB; or
- (ii) Pay full rental to HPB, which in turn distributes the same as periodic distribution to investors who are holding Class A2 Sukuk and Class B2 Sukuk.

Where the Company elects to pay dividend, HPB will only receive Nominal Rental under the lease agreement which it in turn would pay out to investors under Class A2 Sukuk and Class B2 Sukuk as nominal periodic distribution. The nominal periodic distribution rate is 0.01% per annum.

Where the Company elects to pay full rental, the Periodic Distribution Rate as in the TM ISIS of Class C NCRPS and Class D NCRPS which is linked to Class A Sukuk and Class B Sukuk is 6.20% and 5.25% per annum respectively, payable semi-annually in arrears. The Periodic Distribution Rate for Class B Sukuk was reset on 31 December 2008 to 4.193% per annum payable semi-annually in arrears. The Periodic Distribution Rate for Class B Sukuk was reset again on 31 December 2013 to 4.87% per annum payable semi-annually in arrears. There will be no resetting of the Periodic Distribution Rate for Class B Sukuk subsequent to 2013 up to the maturity dates of the Sukuk.

Pursuant to Finance Act, 2007, tax credits can no longer be passed on to the investors who are not ordinary shareholders effective from 1 January 2008.

- (c) A portion of the security as described in sub-note (b) above, has been hedged with interest rate swaps which are accounted for using hedge accounting. Hence, fair value attributable to the changes in interest rate risk that has been hedged, is included in borrowings. As disclosed in note 19(c)(i) to the financial statements, the hedging matured/was unwound on 30 December 2016.
- (d) On 30 August 2013, the Company received approval from the Securities Commission Malaysia for the establishment of an Islamic Commercial Papers (ICP) programme and Islamic Medium Term Notes (IMTN) programme with a total combined limit of up to RM3.0 billion in nominal value, which have respective tenures of 7 and 20 years from the date of first issue. The ICP shall have a tenure of not more than 12 months whilst the IMTN between 1 to 20 years provided that the respective debt securities mature before the expiry of the respective programmes.

Earlier on 5 April 2011, the Company established an ICP and IMTN programme with a combined limit of up to RM2.0 billion in nominal value, which had been fully issued by 2013.

The proceeds from the issuance of the ICP and/or IMTN were used by the Company to meet its capital expenditure and business operating requirements. The IMTN in issue comprise the following:

| | The Group and Company | |
|----------------------------------|-----------------------|----------------|
| | 2016 RM | 2015 RM |

None of the Debentures was redeemed, purchased or cancelled during the current financial year.

18. PAYABLE TO SUBSIDIARIES

- (a) On 20 November 2012, the Company's wholly-owned subsidiary, TM Global Incorporated (TM Global), a company incorporated in the Federal Territory of Labuan under the Offshore Companies Act, 1990, obtained a 5-year JPY7.8 billion loan from a financial institution which will mature on 20 November 2017. The loan carries a fixed JPY interest rate of 0.91375% per annum payable semi-annually on 20 May and 20 November of each financial year. The loan was utilised to repay the two Islamic Commercial Papers issued by the Company of RM150.0 million each which matured on 21 November 2012. The loan is unconditionally and irrevocably guaranteed by the Company.

On 12 November 2013, TM Global obtained a 7-year USD100.0 million loan from another financial institution which will mature on 30 October 2020. The loan carries a floating USD interest rate of 3 months London Inter-Bank Offer Rate (LIBOR) plus 0.91% per annum payable quarterly on 12 February, May, August and November of each financial year including 30 October 2020. The loan is unconditionally and irrevocably guaranteed by the Company.

- (b) On 3 March 2015, the Company's wholly-owned subsidiary, Tulip Maple Berhad (Tulip Maple), received approval from the Securities Commission Malaysia for the establishment of a Multi-Currency Euro Medium Term Notes (EMTN) Sukuk Programme of up to USD750.0 million in nominal value (or its equivalent in foreign currencies).

On 25 February 2016, Tulip Maple issued a 10-year USD50.0 million Sukuk due on 25 February 2026. The Sukuk carries a periodic distribution rate of 3.7% per annum payable semi-annually in arrears on 25 August and 25 February of each financial year commencing August 2016.

On 19 August 2016, Tulip Maple issued a 7-year USD50.0 million Sukuk due on 21 August 2023. The Sukuk carries a periodic distribution rate of 1 month LIBOR plus 1.35% per annum payable monthly in arrears on the 19th of every month commencing September 2016.

On 15 November 2016, Tulip Maple issued a 10-year USD75.0 million Sukuk due on 15 November 2026. The Sukuk carries a periodic distribution rate of 3.422% per annum payable semi-annually in arrears on 15 May and 15 November of each financial year commencing May 2017.

Proceeds from these transactions were utilised to finance the Company's capital expenditure and business operating requirements.

The term loans and Sukuk are reflected as borrowings of the Group (note 17 to the financial statements).

- (i) The cumulative gains or losses on the hedged items attributable to the hedged risk is disclosed in note 17 to the financial statements or taken to reserve.
- (ii) Hedge accounting has been applied for these cash flow hedges where the underlying hedged items are as follows:
- (a) the hedged portion of the recurring semi-annual coupon payment and final settlement of the USD300.0 million 7.875% Debentures due in 2025.
 - (b) semi-annual interest payment and final settlement of the JPY7.8 billion loan due in 2017.
 - (c) quarterly interest payment and final settlement of the USD100.0 million loan due in 2020.

There is no ineffectiveness to be recorded from fair value and cash flow hedges accounted for under hedge accounting.

Fair values of financial derivative instruments are the present values of their future cash flows. Favourable fair value indicates amount receivable by the Group and the Company if the contracts are terminated or vice versa. The Group and the Company are exposed to credit risk where the fair value of the contract is favourable, where the counterparty is required to pay the Group or the Company in the event of contract termination.

The maximum exposure to credit risk at the reporting date is the carrying amount of the derivative assets as presented on the Statements of Financial Position.

The swaps will mature on 30 October 2020. On the maturity date, the Company would receive the USD notional amount and pay the counterparties an equivalent combined RM amount of RM316.8 million.

The CCIRS contracts effectively convert the USD liability into RM liability.

(f) Call and Put Options on Shares of a Subsidiary of the Group

On 27 March 2014, the Group announced that its wholly-owned subsidiary, Mobikom Sdn Bhd (Mobikom) had entered into a conditional investment agreement with the following parties in relation to, amongst others, the subscription by Mobikom of new ordinary shares of RM1.00 each in webe (webe shares) for a total consideration of RM350.0 million (Share Subscription) (Investment Agreement):

- (a) Packet One Sdn Bhd (Packet One), a wholly-owned subsidiary of Green Packet Berhad (Green Packet);
- (b) SK Telecom Co. Ltd (SKT);
- (c) Green Packet;
- (d) Telekom Malaysia Berhad (the Company); and
- (e) Webe Digital Sdn Bhd (webe) (formerly known as Packet One Networks (Malaysia) Sdn Bhd)

The Investment Agreement amongst others includes certain granting of call and put options between Mobikom with Packet One and SKT respectively over shares of webe, as follows:

(i) Put Option liability over shares held by non-controlling interest

The Group through Mobikom has granted Packet One Sdn Bhd (Packet One) an option to sell, which would require Mobikom to buy, all shares in the capital of webe registered in Packet One's (including Packet One's related corporation) name, collectively (Packet One Put Option).

The Packet One Put Option may be exercised in whole and not in part at any time on or after 31 March 2021 up to 30 September 2022 at the volume weighted average market price of webe at the time of the exercise if it is traded or listed at a recognised stock exchange such as Bursa Malaysia Securities or if webe shares are not publicly traded, the fully distributed market or equity value at which the webe shares would trade on a recognised stock exchange.

This instrument represents the present value of the Group's liability to purchase its own equity. Fair value movements from changes in expected future liability is recognised as other gains and losses in the Income Statement whilst unwinding of discount of expected future outflow is recognised as finance cost.

NOTES TO THE FINANCIAL STATEMENTS

19. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING TRANSACTIONS (continued)

Summarised below are the derivative hedging transactions entered into by the Company: (continued)

(f) Call and Put Options on Shares of a Subsidiary of the Group (continued)**(ii) Call Option on shares held by non-controlling interest**

SKT has granted to Mobikom an option to buy and SKT to sell, all shares in the capital of webe registered under SKT's (including SKT's related corporation) name, collectively (SKT Call Option).

Among other conditions, the SKT Call Option may be exercised only in whole and not in part, any time after SKT and its related corporation ceases to own at least 10% of the issued share capital of webe and will automatically lapse upon the earlier of:

- (i) two (2) months after the completion of the issuance of the RM1.65 billion Convertible MTN;
- (ii) the date immediately prior to completion of any capital increase other than those contained in the Investment Agreement; or
- (iii) any initial public offering implemented by webe.

The exercise price is at a price equal to Mobikom's per share subscription price during the completion of the acquisition of webe by the Group on 30 September 2014.

Other than the above, there were other derivatives arising from the Group's investment in webe but for which exercise prices are at fair market value of the shares in webe at the time when the options are to be exercised and as such, the fair value of these options are nil.

20. DEFERRED TAX

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority. The following amounts, determined after appropriate offsetting, are presented on the Statements of Financial Position:

The Company was granted approval under Section 127(3A) of the Income Tax Act, 1967 for income tax exemption in the form of the following Investment Allowance (IA):

- (i) 60% on qualifying high speed broadband assets acquired within a period of 5 years commencing 16 September 2008 to 15 September 2013 to be set off against a maximum of 70% of statutory income for each year of assessment.
- (ii) 60% on qualifying high speed broadband assets acquired within a period of 5 years commencing 1 January 2015 to 31 December 2019 to be set off against a maximum of 70% of statutory income for each year of assessment. (Approval was granted post the financial year ended 31 December 2016 and accordingly, the relevant tax credits have been recognised in the financial year ended 31 December 2016 for qualifying expenditures capitalised during the current and preceeding financial year).

Any unutilised allowance can be carried forward to subsequent years until fully utilised. The amount of income exempted from tax is credited to a tax-exempt account from which tax-exempt dividends can be declared.

The deferred tax assets on unutilised IA have been recognised on the basis of the Company's previous history of recording profits, and to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised.

FINANCIAL PERFORMANCE AND STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

20. DEFERRED TAX (continued)

The unutilised tax losses and unabsorbed capital/other tax allowances of subsidiaries for which no deferred tax asset has been recognised on the Statement of Financial Position are as follows:

| | The Group | |
|---|----------------|------------|
| | 2016 RM | 2015 RM |

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

22. PROPERTY, PLANT AND EQUIPMENT (continued)

- (a) Included in additions of the Group and the Company are borrowing costs of RM19.3 million (2015: RM37.1 million) directly attributable to the construction of qualifying assets.
- (b) Included in property, plant and equipment of the Group and the Company are fully depreciated assets which are still in use costing RM26,620.9 million (2015: RM26,307.3 million) and RM25,834.6 million (2015: RM25,521.0 million) respectively.
- (c) Reflective of the latest available roll-out plan of a subsidiary's Long Term Evolution (LTE) network which will phase out the use of existing WiMAX assets, depreciation charges during the year included RM36.1 million accelerated depreciation of WiMAX assets in addition to the RM119.0 million (2015: RM20.3 million) already accelerated in 2016 from the initial roll-out plan existing at the end of the preceding financial year.
- (d) Impairment loss

The review of impairment for property, plant and equipment carried out during the year resulted in certain property, plant and equipment being impaired. RM14.0 million impairment loss during the financial year was in relation to equipment and assets under construction affected by technology obsolescence and were impaired to estimated market value less cost to sale. RM30.5 million of the impairment loss recognised in the preceding financial year were relating to assets located at sites that are no longer in operation as well as assets that were affected by obsolescence. As the assets impaired were highly specialised, their fair value less cost to sell for these items were estimated to be nil. The remaining RM1.4 million impairment loss in 2015 were in respect of assets with uncertain future cash flows for which recoverable value has been estimated to approximately nil.

- (e) Included in property, plant and equipment of the Group and the Company is an office building and computer support systems with net book value of RM51.0 million (2015: RM45.6 million) and RM51.2 million (RM45.6 million) respectively, which are under finance lease arrangement.

* Other intangibles comprise the fair value of acquired development expenditure incurred in the design, development and testing of products and services, software and programme rights of other subsidiaries.

During the previous financial year, fully amortised other intangibles of a subsidiary amounting to RM9.7 million were written off against accumulated amortisation of the same amount.

- (a) Included in other intangible assets are the fair value of irrevocable vouchers of RM22.9 million (2015: RM32.4 million). A subsidiary of the Group was granted irrevocable vouchers by a major supplier as part of a Debt Settlement Agreement entered in year 2013 in relation to equipment purchase. These can be used to set-off against future purchase costs of network equipment manufactured by the supplier and/or technical services provided by the supplier to the subsidiary within a pre-determined period as set out in the Debt Settlement Agreement and/or can be used to offset certain payables amount outstanding or redeemed as cash subject to the terms and conditions of the Debt Settlement Agreement.

On 15 July 2015, the subsidiary had fully settled the total payable sums and thus invalidating the Debt Settlement Agreement. The supplier has extended the validity of the irrevocable vouchers to 31 December 2018. In the event there is any unutilised portion of the irrevocable vouchers on 31 December 2018, it shall be extended for a further twenty-four months from the expiry date on 31 December 2018. In addition, the irrevocable vouchers have been extended for utilisation within TM Group of companies, by the supplier, from 1 January 2016 to 31 December 2018 with the amount capped at USD5.0 million.

The vouchers utilised during the year have been set-off against amount payable to the supplier.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

24. INTANGIBLE ASSETS (continued)**(b) Impairment test for goodwill**

The Group undertakes an annual test for impairment of its cash-generating units. No impairment loss was required for the carrying amounts of goodwill assessed as at 31 December 2016 as their recoverable amounts were in excess of their carrying amounts.

The Group's total goodwill is attributable to the following cash-generating units, being the lowest level of asset for which there are separately identifiable cash flows:

| | 2016 RM | 2015 RM |
|-----------------------------|--------------|--------------|
| VADS Berhad (VADS) | 308.4 | 308.4 |
| Webe Digital Sdn Bhd (webe) | 52.1 | 52.1 |
| Others | 1.2 | 1.2 |
| | 361.7 | 361.7 |

The amount of goodwill initially recognised is dependent upon the allocation of the purchase price to the fair value of identifiable assets acquired and the liabilities assumed. The determination of the fair value of the assets and liabilities is based, to a considerable extent, on management's judgment.

(i) Key assumptions used in the value-in-use calculation

The recoverable amount of the cash-generating unit including goodwill in this test, is determined based on value-in-use calculation.

This value-in-use calculation applies a discounted cash flow model using cash flows projection based on forecast and projection approved by management covering a three-year period for VADS. As for webe, the cash flows projection used is based on a ten-year forecast in view of the long term nature and capital intensive plan of the Group to roll-out a Long Term Evolution (LTE) network through webe. The ten-year projection used, has been approved by management. The forecast and projection reflect management's expectation of revenue growth, operating costs and margins for the cash-generating unit based on past experience. Cash flows beyond the third year for VADS and tenth year for webe respectively are extrapolated using estimated terminal growth rate. The rates have been determined with regards to projected growth rate for the market in which the cash-generating units participate.

The discount rate applied to the cash flows forecast is benchmarked against local peers at the date of the assessment of the cash-generating unit.

The following assumptions have been applied in the value-in-use calculation:

| | 2016 | | 2015 | |
|-----------------------|-------|-------|-------|-------|
| | VADS | webe | VADS | webe |
| Pre-tax discount rate | 11.8% | 19.7% | 11.7% | 19.7% |
| Terminal growth rate | 1.5% | 1.0% | 1.5% | 1.0% |

(ii) Impact of possible change in key assumptions used

Changing the assumptions selected by management, in particular the discount rate assumption used in the discounted cash flow model could significantly affect the result of the impairment test and consequently the Group's results. The Group's review includes an impact assessment of changes in key assumptions. Based on the sensitivity analysis performed, management has concluded that no reasonable change in the base case key assumptions would cause the carrying amount of the cash-generating units to exceed their recoverable amounts respectively.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

24. INTANGIBLE ASSETS (continued)

(b) Impairment test for goodwill (continued)

(ii) Impact of possible change in key assumptions used (continued)

If the following pre-tax discount rates are applied to the cash flow forecasts and projection of the Group's cash-generating units respectively, the carrying amount of the cash-generating units including goodwill will equal the corresponding recoverable values, assuming all other variables remain unchanged.

| | 2016 | | 2015 | |
|-----------------------|-------|-------|-------|-------|
| | VADS | webe | VADS | webe |
| Pre-tax discount rate | 18.0% | 26.9% | 21.3% | 24.1% |

(a) Investments in certain subsidiaries have been written down to recoverable amount of RM1.00 each.

The Group's effective equity interest in the subsidiaries, their respective principal activities and countries of incorporation are listed in note 51 to the financial statements. Other than Yayasan Telekom Malaysia, which is 100% consolidated in the Group's financial results, the proportion of the Group's voting rights in the subsidiaries held by the Group do not differ from the proportion of ordinary shares held or the Group's effective equity interests in the subsidiaries. The Group has de facto control over Yayasan Telekom Malaysia due to a combination of facts including source of funding and right to appoint the Board of Trustees.

There are no significant restrictions on the ability of the subsidiaries to transfer funds in the form of dividends and other capital distributions or for loans or advances being made or repaid, to (or from) the Group.

- (i) Staff loans comprise housing, vehicle, computer and club membership loans offered to employees with contractual financing cost of 4.0% per annum on a reducing balance basis except for club membership loans which are free of financing cost. There is no single significant credit risk exposure as the amount is mainly receivable from individuals. Staff loans inclusive of financing cost, are repayable in equal monthly instalments as follows:

- Housing loans - 25 years or upon employees attaining 55 years of age, whichever is earlier
- Vehicle loans - maximum of 8 years for new cars and 6 years for second hand cars
- Computer loans - 3 years

Credit risk arising from staff loans is mitigated by the enforcement of salary deductions as a mode of repayment. In addition, collateral is obtained for the following:

- Housing loans - registered land charges and assignments over the properties financed
- Vehicle loans - ownership claims over the vehicles financed

During the current financial year, the Company disposed RM11.6 million (2015: RM11.9 million) of its employees housing loans for a total cash consideration of RM11.0 million (2015: RM11.3 million) pursuant to the Sale and Purchase (S&P) Agreement entered on 27 May 2009 with AmMortgage One Berhad (AmMortgage One), a wholly-owned subsidiary of AmBank (M) Berhad (AmBank). In tandem with the S&P Agreement, a Servicing Agreement between the Company, AmMortgage One and AmBank was also executed. The arrangement reflects the outsourcing of the Company's mortgage servicing operations to AmBank.

30. OTHER NON-CURRENT RECEIVABLES (continued)

- (i) The disposal in 2009 included loan portfolio of employees where the repayment terms go beyond the employees' retirement age. This loan portfolio was not derecognised as the credit risk in the event of default after the employees' retirement age, remains with the Company. The carrying amount of the loan portfolio and its fair value are as follows:

| | The Group and Company | | | |
|-------------------------------|--------------------------|------------------|--------------------------|------------------|
| | 2016 | | 2015 | |
| | Carrying amount RM | Fair value RM | Carrying amount RM | Fair value RM |

| Other borrowings (note 17) | (0.4) | (0.4) | (0.5) | (0.5) |
| Net amount | # | # | # | # |

Amount less than RM0.1 million

- (ii) Other deposits comprise deposit and accrued interest relating to the non-cancellable operating lease of four office buildings and long term deposits.

The Company entered into two Ringgit Malaysia deposit agreements in 2011 with maturity on 1 August 2025, under which the Company will deposit RM4.1 million and RM4.2 million respectively every six months until the deposits' maturity date. On maturity, the Company will be entitled for deposits repayments of RM154.0 million and RM156.5 million respectively. The deposits are collateralised by Malaysian Government Bonds.

The deposits effectively build up a sinking fund with an assured value of RM154.0 million and RM156.5 million respectively on 1 August 2025 for the repayment of the Company's Debentures.

- (iii) This comprise tax credit in respect of prior years arising from the last mile broadband tax incentive as explained in note 20 to the financial statements, to be offset against future tax payables.
- (iv) This comprise the carrying value of the first three tranches and accrued interest of the 8-year Redeemable Exchangeable Medium Term Notes (Exchangeable MTNs) issued by Green Packet Berhad (Green Packet) subscribed by a wholly-owned subsidiary of the Group. The credit risk arising from the Exchangeable MTNs is limited as the Exchangeable MTNs is secured against Webe Digital Sdn Bhd (webe) ordinary shares held by Packet One Sdn Bhd (Packet One), a wholly-owned subsidiary of Green Packet and the 8-year Convertible Medium Term Notes issued by webe which has been subscribed by Packet One.
- (v) Include the present value of receivables for land disposed by a wholly-owned subsidiary, due over the remaining contractual period of the joint land development agreement and long term leasing receivables of the wholly-owned subsidiary.

Amount less than RM0.1 million

- (a) The RM6.3 million reversal of impairment loss recognised in the previous financial year was in respect of land and buildings that were impaired to the contracted selling price, less cost to sell in 2014. The sales contract was subsequently unwound in 2015 and the impairment loss reversed, as the fair value of the assets based on current price observable in the market (Level 2 fair value), exceeds the assets' carrying amount immediately prior to reclassification from property, plant and equipment (RM15.9 million). The Group remains committed in an active programme to locate a buyer to complete the disposal of the assets.

| At 1 January | 40.0 | 32.4 | 74.8 | 71.3 |
| Net impairment | 0.9 | 8.1 | 2.2 | 3.9 |
| Receivables written off as uncollectible | - | (0.5) | - | (0.4) |
| At 31 December | 40.9 | 40.0 | 77.0 | 74.8 |

The creation and release of impaired receivables has been included in 'other operating costs' on the Income Statement (note 6(b) to the financial statements). Amounts charged to the impairment accounts are generally written off, when there is no expectation of recovering additional cash.

The other classes within trade and other receivables do not contain impaired assets.

Certain amount of trade receivables have been subjected to offsetting with trade payables where these balances are from transactions transacted with the same counterparty and are settled on net basis, summarised as follows:

| | 2016 | | | 2015 | | |
|-------------|---|---|---|---|---|---|
| | Gross amount of trade receivables RM | Gross amount of trade payables and accruals set off against trade receivables (note 37) RM | Net amount of trade receivables RM | Gross amount of trade receivables RM | Gross amount of trade payables and accruals set off against trade receivables (note 37) RM | Net amount of trade receivables RM |

| | 899.3 | 972.6 | 653.0 | 714.7 |

* Others mainly comprise student debtors and receivables for the provision of managed network services, information and communications technology, system integration services and last mile broadband services of subsidiaries.

The Group and the Company are not exposed to major concentrations of credit risk due to the diversified customer base. The analysis of trade receivables by lines of business is considered the most appropriate disclosure of credit concentration. In addition, credit risk is mitigated to a certain extent by cash deposits (note 38 to the financial statements) and bankers' guarantee obtained from customers amounting to RM5.2 million (2015: RM6.4 million). The Group and the Company consider the impairment at the reporting date to be adequate to cover the potential financial loss.

Credit terms of trade receivables excluding accrued earnings range from 30 to 90 days (2015: 30 to 90 days).

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivable mentioned above.

The currency exposure profile of trade and other receivables after impairment is as follows:

| | The Group | | The Company | |

- (a) Include excess funds of subsidiaries managed and invested by the Company, which are interest bearing as disclosed in note 43(b) to the financial statements.
- (b) Provision for Skim MESRA for eligible employees

On 1 October 2016, the Group and the Company announced the 3rd of a series of offering of the special optional retirement scheme, called Skim MESRA, to its employees aged 55 and above as at 31 December 2016. Eligible employees who accepts the optional retirement offer are compensated through special incentives and designated benefits until they reach the age of 60. A similar scheme was also offered to eligible employees of the Group and the Company in the previous two financial years.

The expected financial impact of this scheme which involves a one-off compensation payment within 12 months of the financial year end during which the acceptance was made as well as pre-determined limited healthcare benefits expected over the subsequent 5 financial years or when the recipient reaches 55 years of age (if earlier), have been recognised in the financial statements based on the number of employees who have accepted the offer at the end of the respective financial years.

Certain amount of trade payables and accruals have been subjected to offsetting with trade receivables where these balances are from transactions transacted with the same counterparties and are settled on net basis, summarised as follows:

(b) High Speed Broadband (HSBB) Project

On 25 July 2008, the Company received the Letter of Award from the Government of Malaysia (GoM) for the implementation of the HSBB project under a Public-Private Partnership (PPP) arrangement. The PPP agreement was executed by the GoM and the Company on 16 September 2008.

The objective of the HSBB project is to develop the country's broadband infrastructure to increase broadband penetration and the competitiveness of the country in attracting foreign investments. The project involves the deployment of access, domestic core and international networks to deliver an end-to-end HSBB infrastructure. The estimated roll-out cost, to be incurred over a 10 years period (up to 25 July 2018) is projected to be RM11.3 billion. As a Co-Sponsor of the project, the GoM has agreed to fund RM2.4 billion of the project cost. The remaining RM8.9 billion will be borne by the Company. The HSBB roll-out has covered 1.3 million premises in 2012.

Under the above arrangement, the Company shall claim from the GoM fifty percent (50.0%) of the capital expenditure incurred for the HSBB project on a quarterly basis over a projected 3.5 years period up to the maximum amount of RM2.4 billion.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

44. CAPITAL AND OTHER COMMITMENTS (continued)**(b) High Speed Broadband (HSBB) Project (continued)**

In conjunction with the arrangement, the Company has to fulfil certain undertakings for the GoM including sharing of appropriate portion of any excess of the actual revenue and other cost savings incurred in relation to the project.

Other undertakings includes roll-out of the HSBB network outside the coverage area for the GoM, develop certain number of telecentres, formulate a broadband package with low cost internet access and provide promotion and public awareness on HSBB which would contribute towards achieving the objective of the project.

(c) High Speed Broadband Project Phase 2 (HSBB2) and the Sub-Urban Broadband Project (SUBB)

On 17 December 2015, the Company signed two (2) PPP agreements with the GoM for the implementation of the HSBB2 and the SUBB to deploy access and domestic core networks to deliver an end-to-end broadband network infrastructure and services for the nation.

The 10-year HSBB2 project encompasses the deployment of additional access and core capacity covering state capitals and selected major towns throughout the country. It includes planning, designing, implementation, operation and maintenance of HSBB network infrastructure and services. Under the project, 95 additional exchanges will be HSBB ready providing access to 390,000 premises by 2017.

The SUBB infrastructure will also be rolled out over a period of ten (10) years, involving the upgrading of existing copper lines to deliver high-speed broadband access speeds of up to 20Mbps and up to 100Mbps in areas deployed with Fibre-to-the-Home (FTTH) technology, to over 420,000 premises by 2019.

The total cost of the HSBB2 investment for a period of ten (10) years is RM1.8 billion whereby the Government will be investing RM500.0 million and the remaining RM1.3 billion will be invested by the Company. The total cost of the SUBB investment for a period of ten (10) years is RM1.6 billion with the Government investing RM600.0 million and the Company investing RM1.0 billion.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

44. CAPITAL AND OTHER COMMITMENTS (continued)**(f) Funding Commitment**

Pursuant to the Investment Agreement entered into by the Group with the non-controlling interests of Webe Digital Sdn Bhd (webe) (formerly known as Packet One Network (Malaysia) Sdn Bhd) which includes an 8-year Convertible Medium Term Notes Programme (Convertible MTN Programme), on 15 September 2015, webe issued RM660.0 million nominal value of the first tranche issuance of the Convertible MTN (First Tranche Convertible MTN). RM622.5 million was subscribed by Mobikom Sdn Bhd, whilst the remaining RM37.5 million of the First Tranche Convertible MTN was subscribed by Packet One Sdn Bhd (a wholly-owned subsidiary of Green Packet Berhad), which holds a non-controlling interest in webe. On 7 September 2016, Mobikom subscribed to RM495.0 million nominal value of a second tranche issuance. The Convertible MTN Programme provides webe the avenue to raise funds of up to RM1.65 billion in tranches from its shareholders. Mobikom has a base subscription entitlement of RM990.0 million of the Convertible MTN Programme, up to any other additional entitlement right as per the terms of the Investment Agreement, in the event of unsubscribed entitlements by the other relevant shareholders (or their related corporations). To date, RM1,155.0 million of the Convertible MTN has been issued. The proceeds raised under the Convertible MTN Programme shall be utilised to finance and fund the implementation of webe's business plan which would involve the roll-out of Long Term Evolution (LTE) network.

45. SEGMENT REPORTING**By Business Segments**

The Group organises its business into the following segments, summarised as follows:

- Mass Market comprises the Company's retail arm and its subsidiaries which complement the retail business. The line of business is responsible for the provision of a wide range of telecommunication services and communications solutions to households, individuals as well as small and medium enterprise (SME) companies.
- Managed Accounts is responsible for the provision of a wide range of telecommunications services and communications solutions to small and medium businesses as well as corporate and government customers except for consumer business, which provides only voice and Internet and multimedia services.
- Global Wholesale comprises the wholesale arm of the Company and its subsidiaries that complement the wholesale business. This line of business is responsible for the provision of a wide range of wholesale telecommunications services delivered over the Group's networks to domestic and international carriers.

Shared Services/Others include all shared services divisions, all business functions divisions such as information technology and network, and subsidiaries that do not fall under the above lines of business.

Segment profits represent segment operating revenue less segment expenses. Unallocated income/other gains or losses comprises other operating income such as dividend income and other gains such as gain on disposal of available-for-sale investments which is not allocated to a particular business segment. Unallocated costs represent expenses incurred by corporate divisions such as Group Human Capital, Group Finance, Group Legal, Compliance & Company Secretary, Group Procurement and special purpose entities and foreign exchange differences arising from translation of foreign currency placements which are not allocated to a particular business segment. The accounting policies used to derive reportable segment profits are consistent with those as described in the Significant Accounting Policies.

Segment assets disclosed for each segment represent assets directly managed by each segment, primarily include intangibles, property, plant and equipment, receivables and inventories. Unallocated assets mainly include available-for-sale investments, available-for-sale receivables, other non-current receivables, financial assets at fair value through profit or loss, deferred tax assets as well as cash and bank balances of the Company and general telecommunication network and information technology, property, plant and equipment at business function divisions as well as those at corporate divisions.

Segment liabilities comprise operating liabilities and exclude borrowings, interest payable on borrowings, taxation and zakat liabilities, deferred tax liabilities and dividend payable.

Segment capital expenditure comprises additions to property, plant and equipment and intangibles, including additions resulting from acquisition of subsidiaries.

Significant non-cash expenses comprise mainly allowance for impairment of receivables and unrealised foreign exchange gains or losses on settlement as disclosed in note 6(b) to the financial statements.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

45. SEGMENT REPORTING (continued)

^a Inter-segment operating revenue relates to inter-division recharge and inter-company revenue and has been eliminated at the respective segment operating revenue. The inter-division recharge was agreed between the relevant lines of business. These inter-segment trading arrangements are entered into in the normal course of business and are subject to periodic review.

[>] Mass Market segment for the current financial year as well as comparatives includes financial information of Webe Digital Sdn Bhd (webe) (formerly known as Packet One Networks (Malaysia) Sdn Bhd) and its subsidiaries, as disclosed in the note 25 to the financial statements, reflective of webe's current customer profile in aligning to the Group's overall operational segmentation.

Certain revenue and cost elements in the comparative period have been revised to better reflect realignment from the movement of Medium Enterprise Business (MEB) customers previously under SME in Mass Market to Enterprise under Managed Accounts cluster.

By Geographical Location

The Group operates in a few countries as disclosed in note 51 to the financial statements. Accordingly, the segmentation of the Group's operations by geographical location is segmented into Malaysia and overseas. The overseas operation is not further segregated as no individual overseas country contributed more than 10.0% of the consolidated operating revenue or assets.

In presenting information for geographical segments of the Group, sales are based on the country in which the customers are located. Total assets and capital expenditure are determined based on where the assets are located.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

47. FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date.

(a) Financial Instruments Carried at Fair Value

The table below analyses financial instruments carried at fair value, by valuation method. The different levels of valuations are:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the Group's and the Company's financial assets and liabilities that are measured at fair value at 31 December.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group and the Company is the current bid price. These instruments are included in Level 1. Instruments included in Level 1 comprise of equity securities quoted on the Bursa Malaysia Securities Berhad classified as fair value through profit or loss.

The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

47. FAIR VALUES (continued)

(a) Financial Instruments Carried at Fair Value (continued)

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments.
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves.
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the reporting date, with the resulting value discounted back to present value.
- The fair value of the put option liability over shares of a subsidiary held by a non-controlling interest are determined using expected future value of a subsidiary with the resulting value discounted to present value.
- The fair value of the call option on shares of a subsidiary held by non-controlling interests is determined through an option valuation model with the use of observable market inputs.
- Fair value of staff loans and long term receivables are determined through discounting future cash flows at market observable borrowing rates reflective of the credit ratings of the individuals from whom the receivables are due.
- Fair value of borrowings and long term payables are based on the expected cost and cash outflows if the borrowings and amount due are to be unwound or settled immediately.
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

All of the resulting fair value estimates are included in Level 2 except for an investment in non-traded equity security, two cross currency interest rate swap contracts and a put option liability over shares of a subsidiary held by non-controlling interest. There were no transfers of any instruments between Level 1, 2 and 3 of the fair valuation hierarchy during the current financial year.

The following table shows a reconciliation from the opening balance to the closing balance for fair value measurements at Level 3 of the fair value hierarchy:

| The Group and Company | Cross Currency Interest Rate Swaps (sub-note (i)) RM | Non-traded Equity Investment (sub-note (ii)) RM |

| Assets | | |

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

47. FAIR VALUES (continued)

(a) Financial Instruments Carried at Fair Value (continued)

The following table shows a reconciliation from the opening balance to the closing balance for fair value measurements in Level 3 of the fair value hierarchy: (continued)

| The Group | Put Option Liability Over Shares Held by Non-controlling Interest (sub-note (iii)) RM |
|--|--|
| Liabilities | |
| 2016 | |
| At 1 January | 305.2 |
| Unwinding of discounts (note 9) | 28.5 |
| Fair value charges to profit and loss (note 8) | (31.8) |
| At 31 December | 301.9 |
| 2015 | |
| At 1 January | 270.1 |
| Unwinding of discounts (note 9) | 9.7 |
| Fair value charges to profit and loss (note 8) | 25.4 |
| At 31 December | 305.2 |

- (i) During the previous financial year, certain Cross Currency Interest Rate Swap contracts were transferred from Level 2 to Level 3 due to adjustments made by counterparty on yield curves in the valuation.
- (ii) The fair valuation of non-traded equity investment is based on discounted future cash flows derived from the budgets and forecasts of the investee entity, duly approved by its Board of Directors. The future cash flows are discounted based on discount factors of comparable entities which are publicly listed whenever available, as well as industry benchmarks, having considered historical ability of the investee in meeting its previous budgets and forecasts. The Group also has Board representation in the investee through which due understanding of actual and forecasted performance are used by the Group in assessing the appropriateness of the estimates and assumptions used in arriving to the valuation.
- (iii) In estimating the fair value of the put option on shares of a subsidiary held by non-controlling interest, the Group has used a valuation model in projecting the expected share price of the subsidiary on average over the period from 2021 to 2022 using recently transacted price, comparable growth rates and discount factors specific to certain industry available at the reporting date.

Although the Group and the Company believe that estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value. For fair value measurement in Level 3, if the discount rate used in the discounted cash flow analysis is to differ by 10% from management's estimates, the carrying amount of available-for-sale financial assets would be approximately RM0.8 million (2015: RM0.8 million) lower or RM0.7 million (2015: RM0.9 million) higher. The fair value of Cross Currency Interest Rate Swaps at Level 3 would approximately be RM12.0 million lower or RM12.0 million higher if forward yield curves were to differ by 5%. The carrying amount of the put option on shares of a subsidiary of the Group would be an estimated RM8.8 million lower or RM9.2 million higher if the discount rate used in the valuation were to differ by 5% from management's estimates.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

47. FAIR VALUES (continued)

(b) Financial Instruments Other Than Those Carried at Fair Value

The carrying amounts of the financial assets and liabilities of the Group and the Company at the reporting date reasonably approximate their fair values except as set out below:

| | The Group | | | | The Company | | | |
|--|--------------------------|-------------------------|--------------------------|-------------------------|--------------------------|-------------------------|--------------------------|-------------------------|
| | 2016 | | 2015 | | 2016 | | 2015 | |

| Other non-current receivables (excluding tax recoverable) | 325.0 | 319.1 | 321.9 | 317.1 | 155.0 | 149.1 | 133.1 | 128.3 |

| Payable to subsidiaries | - | - | - | - | 1,528.7 | 1,511.5 | 706.3 | 733.5 |

Assets

In assessing the fair value of non-traded financial instruments, the Group and the Company use a variety of methods and make assumptions that are based on market conditions existing at each reporting date. Where impairment is made in respect of any investment, the carrying amount net of impairment made is deemed to be a close approximation of its fair value.

The fair values of staff loans, Redeemable Exchangeable Medium Term Notes and other non-current receivables were estimated by discounting the estimated future cash flows using the prevailing market rates for similar credit risks and remaining period to maturity, respectively.

Collaterals are taken for staff loans and the Directors are of the opinion that the potential losses in the event of default will be covered by the collateral values on individual loan basis.

Liabilities

The fair value of quoted bonds was estimated using the respective quoted offer price. For unquoted borrowings with fixed interest rate, the fair values were estimated by discounting the estimated future cash flows using the prevailing market rates for similar credit risks and remaining period to maturity.

The financial liabilities will be realised at their carrying amounts and not at their fair values as the Directors have no intention to settle these liabilities other than in accordance with their contractual obligations.

For all other short term financial instruments maturing within one year or are repayable on demand, the carrying amounts reasonably approximate their fair values at the reporting date.

FINANCIAL PERFORMANCE AND STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

49. INTEREST RATE RISK/MATURITY ANALYSIS

The table below summarises the Group's and the Company's exposure to interest rate risk. Included in the tables are the Group's and the Company's financial assets and liabilities at their carrying amounts, categorised by the earlier of repricing or contractual maturity dates. As such the spread of balances between the ageing brackets in the table below may not necessarily coincide with those shown in the liquidity risk schedule in note 48 or the repayment schedules in note 17 to the financial statements. Sensitivity to interest rates arises from mismatches in the repricing dates, cash flows and other characteristics of assets and their corresponding liability funding.

50. CONTINGENT LIABILITIES (UNSECURED)

- (a) On 26 November 2007, the Company and TESB were served with a Writ of Summons and Statement of Claim in respect of a suit filed by Mohd Shuaib Ishak (MSI). MSI is seeking from the Company, TESB and 12 others (including the former and existing directors of the Company) jointly and/or severally, inter alia, the following:
- (i) a Declaration that the Sale and Purchase Agreement dated 28 October 2002 between Celcom and the Company (or TESB) for the acquisition by Celcom of the shares in TM Cellular Sdn Bhd, and all matters undertaken thereunder including but not limited to the issuance of shares by Celcom are illegal and void and of no effect;
 - (ii) a Declaration that all purchases of shares in Celcom made by TESB and/or the Company and/or parties acting in concert with them with effect from and including the date of the Notice of the Mandatory Offer dated 3 April 2003 issued by Commerce International Merchant Bankers Berhad (now known as CIMB) are illegal and void and of no effect;
 - (iii) all necessary and fit orders and directions as may be required to give effect to the aforesaid Declarations as the Court deemed fit including but not limited to directions for the rescission of all transfers of shares of Celcom made after the Notice of Mandatory Offer for shares in Celcom dated 3 April 2003;
 - (iv) that the Company by itself, its servants and agents be restrained from giving effect to or executing any of the proposals relating to the proposed demerger of the mobile and fixed line businesses of the Group; and
 - (v) various damages to be assessed.

On 30 November 2007, the Company and TESB obtained leave to enter conditional appearance and subsequently on 17 December 2007, the Company and TESB filed the relevant application to strike out the suit (Striking Out Application).

On 20 July 2012, the High Court found in favour of the Company and granted an order in terms of the Striking Out Application.

On 13 August 2012, MSI filed an appeal to the Court of Appeal against the decision of the High Court above. The appeal was dismissed on 30 October 2013.

On 28 November 2013, MSI filed an application for leave to appeal to the Federal Court against the decision of the Court of Appeal above stated.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

50. CONTINGENT LIABILITIES (UNSECURED) (continued)

- (a) On 1 March 2016, the Federal Court dismissed the said application with costs of RM10,000.00.

Based on the Federal Court's decision and the Company's external legal advice, the legal suit brought by MSI against the Company has effectively ended.

- (b) On 6 March 2013, TM Facilities Sdn Bhd (TMF), a wholly-owned subsidiary of the Group, has through its solicitors, been served with a Writ and Statement of Claim by Menara Intan Langkawi Sdn Bhd (MIL) and HBA Development Bhd (HBA), through their solicitors.

The claim by HBA is premised upon an alleged wrongful termination of an Agreement to Lease dated 14 August 2003 between MIL and TMF (Agreement). Under the Agreement, TMF had agreed to take a lease of a telecommunication tower to be constructed at the Mukim of Kuah in Langkawi, from MIL, a joint venture company between Lembaga Pembangunan Langkawi and HBA, for a lease period of 15 years and at a lease rental of RM17.0 million per annum.

The Lease Agreement was subsequently terminated by TMF on 6 February 2007, as TMF was of the view that MIL has failed to secure the necessary approvals and commence construction of the telecommunication tower despite the time given.

Based on the Amended Writ and Statement of Claim (Statement of Claim), MIL and HBA are seeking for the following:

- (a) Damages in respect of loss of profit of RM168,701,922.00;
- (b) Damages in respect of works and expenses of RM86,298,078.60;
- (c) Damages in respect of the value of a land measuring 28.49 acres of RM80,600,000.00;
- (d) General damages;
- (e) Interest; and
- (f) Costs.

On 28 March 2013, TMF filed an application to strike out the Statement of Claim by the 2nd Plaintiff, HBA against TMF (Striking Out Application).

On 1 April 2013, TMF was served with an Amended Statement of Claim dated 29 March 2013 by both the Plaintiffs in the legal suit. In the Amended Statement of Claim, the Plaintiffs have amended their claim of loss of profits from RM168,701,922.00 to RM225,000,000.00.

On 17 May 2013, the Striking Out Application was allowed with cost by the High Court. On the same day, TMF filed its Defence to the Amended Statement of Claim by the 1st Plaintiff, MIL.

On 1 July 2013, the High Court ordered MIL to provide security for cost in the sum of RM175,000.00 within a period of 45 days and further ordered for the legal suit to be stayed pending payment of the same. On 26 August 2013, MIL paid the security for costs into TMF's solicitor's account.

On 18 November 2013, TMF's solicitors were served with a Summary Judgment Application in which MIL seeks for the following Orders from the High Court:

- (i) An Order for declaration that TMF has wrongfully and unlawfully terminated the Agreement;
- (ii) An Order for assessment of damages to be paid by TMF to MIL for all the damages and losses suffered by MIL as compensation for the termination of the Agreement wrongfully and unlawfully;

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

50. CONTINGENT LIABILITIES (UNSECURED) (continued)

(b) On 18 November 2013, TMF's solicitors were served with a Summary Judgment Application in which MIL seeks for the following Orders from the High Court: (continued)

(iii) An Order for TMF to pay MIL immediately after the assessment of damages by the Court; and

(iv) Interest and cost.

The hearing date for the Summary Judgment Application was fixed on 26 May 2014.

On 26 May 2014, MIL withdrew the Summary Judgment Application. The legal suit then proceeded for trial on 26 - 27 May 2014 and on 23 - 24 June 2014.

On 31 October 2014, the High Court dismissed MIL's claim and awarded costs in the sum of RM50,000.00 in favour of TMF.

On 12 November 2014, MIL filed its appeal against the said decision of the High Court. The appeal was fixed for case management on 17 March 2015.

On 15 April 2015, the Court of Appeal allowed the extension of time sought by MIL in respect of the filing of the Record of Appeal with cost in the sum of RM2,000.00 to be paid to TMF.

On 2 December 2015, the Court of Appeal allowed MIL's solicitors' application to discharge themselves from representing MIL with no order as to costs.

The Court of Appeal further allowed TMF's application for security for costs in the sum of RM30,000.00 with costs of RM3,000.00 to be paid by MIL to TMF. The appeal shall, unless the security for costs is paid to TMF within a period of 14 days, be dismissed by the Court of Appeal with costs to be paid by MIL to TMF.

On 3 February 2016, TMF's solicitors served the sealed copy of the order to MIL and demanded the payment of the security for costs within a period of 14 days from the date of service, failing which TMF's solicitors will file a motion by way of application to strike out MIL's appeal. On 24 March 2016, TMF's solicitors filed a Notice of Motion to strike out MIL's appeal. On 11 May 2016, the Court of Appeal allowed TMF's application to strike out MIL's appeal ("Order") with cost of RM1,000.00.

On 15 August 2016, TMF's solicitors served the sealed Order on the registered and business addresses of MIL and MIL may file an application to the Court of Appeal to set aside the Order within a period of thirty (30) days from the date of receipt of the sealed Order by MIL. On 15 September 2016, TMF's solicitors informed that the period of the said thirty (30) days has lapsed and they have not been served with any application from MIL to set aside the Order. Based on the said Order and TMF's solicitors' legal advice, the legal suit brought by MIL against TMF has effectively come to an end.

Apart from the above, the Directors are not aware of any other proceedings pending against the Company and/or its subsidiaries or of any facts likely to give rise to any proceedings which might materially affect the financial position or business of the Company and/or its subsidiaries.

There were no other contingent liabilities or material litigations or guarantees other than those arising in the ordinary course of the business of the Group and the Company and on these, no material losses are anticipated.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF TELEKOM MALAYSIA BERHAD
INCORPORATED IN MALAYSIA
(COMPANY NO. 128740-P)

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Telekom Malaysia Berhad (the Company) and its subsidiaries (the Group) give a true and fair view of the financial position of the Group and of the Company as at 31 December 2016, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

What we have audited

We have audited the financial statements of the Group and of the Company, which comprise the statements of financial position as at 31 December 2016 of the Group and of the Company, and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 204 to 328.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (By-Laws) and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Group and the Company. In particular, we considered where the Directors made subjective judgments; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group and of the Company, the accounting processes and controls, and the industry in which the Group and the Company operate.

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key audit matters | How our audit addressed the key audit matters |
|---|---|
| <p>1) Useful lives for property, plant and equipment (PPE)</p> <p>During the financial year, Webe Digital Sdn Bhd (webe), a subsidiary of the Company, revised the remaining useful lives of its WiMAX related telecommunications network equipment (equipment). This revision is in line with webe's latest Long Term Evolution (LTE) roll-out and network migration plan (Plan).</p> <p>The impact of this change in estimate of useful lives resulted in an additional depreciation charge of RM36.1 million for the current financial year.</p> <p>We focused on this area as the assessment performed by management on the revision of useful lives is solely dependent on the Plan.</p> <p><i>Refer to notes 2(d)(ii), 3(a) and 22(c) to the financial statements.</i></p> | <p>We performed the following audit procedures:</p> <ul style="list-style-type: none"> • Read the Plan and discussed with management to understand the type of assets that depreciation is being accelerated; and • Agreed the revised useful lives in management's accelerated depreciation calculation to the Plan. <p>Based on the procedures performed above, the revised useful lives as applied by management are consistent with our understanding of the Plan.</p> |
| <p>2) Assessment on carrying value of goodwill</p> <p>As at 31 December 2016, the Group's goodwill amounted to RM361.7 million, attributable to 2 significant cash-generating units (CGUs); VADS Berhad (RM308.4 million) and webe (RM52.1 million).</p> <p>We focused on these areas as the recoverable amount of these CGUs is subject to the use of significant accounting estimates and assumptions in the projected future cash flows.</p> <p><i>Refer to notes 2(f)(i), 3(c) and 24(b) to the financial statements.</i></p> | <p>Based on the recoverable amount calculations, we performed the following:</p> <ul style="list-style-type: none"> • Agreed the cash flows to the budgets approved by the Board of Directors; • Discussed with management the key assumptions used in the recoverable amount calculations and compared the revenue and subscriber growth rates, and earnings before interest, tax, depreciation and amortisation (EBITDA) margin used in the cash flows to the historical performance of the CGUs and market comparable data; and • Checked the reasonableness of the discount rates and terminal growth rates with the assistance of our valuation experts by benchmarking to market comparable data. <p>We also performed sensitivity analysis around the EBITDA margins, revenue and subscriber growth rates.</p> <p>Based on the procedures performed above, no impairment is required as the recoverable amounts for both CGUs exceed the carrying values.</p> |

| <p>3) Valuation of put option</p> <p>Acquisition of webe includes a put option written in relation to webe's shares held by Green Packet Berhad and SK Telecom Co. Ltd. This put option is a financial liability as the Company cannot avoid the contractual obligation to purchase its own shares and is measured based on the present value of the redemption amount of the option, when it is exercised. The fair value of this option liability as at 31 December 2016 was RM301.9 million.</p> <p>We focused on this area as the valuation of the put option is subject to the use of significant accounting estimates and assumptions in the projected future cash flows of webe.</p> <p><i>Refer to notes 2(q)(iii), 3(h), 19(f)(i), and 47(a) to the financial statements.</i></p> | <p>We performed the following audit procedures:</p> <ul style="list-style-type: none"> • Agreed the cash flows to the budget approved by the Board of Directors; • Discussed with management the key assumptions used in the recoverable amount calculations and compared the revenue and subscriber growth rates, and earnings before interest, tax, depreciation and amortisation (EBITDA) margin used in the cash flows to the historical performance of webe and market comparable data; • Checked the reasonableness of the discount rate and terminal growth rate with the assistance of our valuation experts by benchmarking to market comparable data; and • Discussed the valuation method with management and worked together with our valuation experts to assess the reasonableness of the valuation method by comparing against the methods used in the industry. <p>We found the assumptions made by management in the valuation of the put option to be within a reasonable range.</p> |
| <p>4) Accuracy of telecommunication services revenue due to complex billing system</p> <p>Telecommunication service revenue amounting to RM11,723.2 million represents a significant component of the Group's revenue.</p> <p>The accuracy of revenue amounts recorded is affected by the complex billing systems that process large volumes of data with a combination of different products sold and price changes in the year, through a number of different systems.</p> <p><i>Refer to notes 2(w) and 5 to the financial statements.</i></p> | <p>We performed the following audit procedures:</p> <ul style="list-style-type: none"> • We evaluated the relevant Information Technology systems and the design of controls, and tested the operating effectiveness of controls over the following procedures to enable us to rely on the continued and proper operation of the billing systems for the purpose of the audit: <ul style="list-style-type: none"> – capturing and recording of revenue transactions; and – authorisation of rate changes and the input of this rate changes to the billing systems; and – calculation of amounts billed to customers; • We tested a sample of customer bills and checked these to payments received from customers; and • We examined material non-standard journal entries and other adjustments posted to the revenue accounts. <p>Based on the procedures performed above, we did not identify any material exceptions in the accuracy of telecommunication services revenue recognition during the year.</p> |

(COMPANY NO. 128740-P)

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**Information other than the financial statements and auditors' report thereon**

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report and Statement of Risk Management and Internal Control, which we obtained prior to the date of this auditors' report, and other sections of the 2016 Integrated Annual Report, which is expected to be made available to us after that date. Other information does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

(COMPANY NO. 128740-P)

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in note 51 to the financial statements.
- (c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The auditors' reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.
